To the obedient, faithful, energetic, watchful Officer we tender our Confidence and regard. You have received time and again the Commendation and thanks of the public. You have been commended by the Councils of your City, but let us not grow weary in well doing - let us strive to obtain still higher Excellence, then the malignity of your foes shall fade away before the high order of Merit you have established for private worth and manly Character.

To those who are not willing to give prompt compliance to the rules of the force and the orders issued for their government, it would be far better for them to send in their Resignations than to be mortified and disgraced by removal.
