Gontrum Asks Hunters' Help

John B. Gontrum, Insurance Commissioners ,has issued a warning to hunters and others walking through the woods and fields to be most careful in discarding cigarettes or throwing down lighted matches.

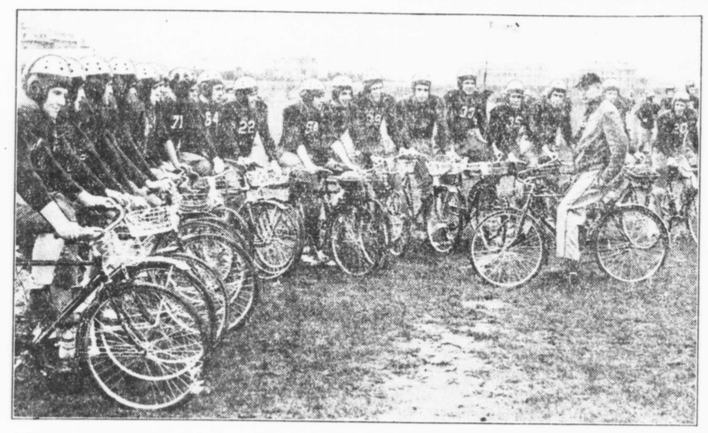
"A spark can result in fires, causing thousands of dollars damage." said Mr. Gontrum.

"Those walking in the country at this season of the year should exercise particular care. Be sure that discarded matches and cigarettes are thoroughly extinguished.

"Not only are forests in many cases ruined by fires and game is killed, but building are destroyed and lives endangered. So please be careful".

Just as soon as we make a good resolution, we get into a situation which makes its observance unbearable.

Cornell's New Idea Clicks



COACH CARL SNAVELY'S idea of putting his Cornell Big Red Team on bicycles as part of their spring training, seems to be getting results if their performance this year counts for anything. In addition to the excellent benefit from bicycling as an exercise in training, he found that it put fun into something that is more or less arduous.
