Completion & Renovation.

Our new church was dedicated on the 4th of Dec., 1898, which would make it 9 years in use on the 4th of Dec., 1907. You all know that it had never been frescoed. When it was built, it was thought best not to frescoe immediately, but give the building time to settle.

We consider ourselves fortunate that nothing serious showed itself along that line. Which stands as an evidence that it is a very compact structure. We think it did well to run 9 years, under a sand finish. A large majority of our members thought it was time to complete the church, and renovate it as far as was necessary. The carpet, in many places having become threadbare. The wood work and wire covering for the windows suffered paint. The woodwork inside and the radiators needed retouching. The organ had never been decorated.

After all we think it providential that we entered into the work at the time we did, as there were serious
