SOME NEW BOOKS

Illustrated South America.

Illustrated South America. By William D. Boyce. Published by Rand, McNally & C., Chicago and New York.

In this volume has been recorded a Chicago publisher's travels and investigations in the republics of South America, with 500 photographs of people and scenes from the Isthmus of Panama to the Straits of Magellan. The contents of this book was originally "newspaper copy," prepared under extremely different conditions of time, scene and place. The articles were written, not in the quiet of the library, but "in the field," necessarily varying in style and quality with the influences of the time and surroundings entering into them. They were written from sea level to 56 degrees south latitude; from regions where rain never falls to regions where the rainfall is 150 inches per annum; they were written on every sort of water craft from ocean-going vessels to the crude balsas of the Amazon head waters; on almost every species of rail vehicle from the luxurious private car to a "caboose" filled with peons; one was written in the midst of an earthquake in Peru, others in the midst of a Paraguayan revolution. Hence the reader need not be surprised should he find the matter "newsy" rather than historic, and the literary manner as uneven and changeable as the country and experiences through which the writer passed.

The Little Gray Shoe.

The Little Gray Shoe—A Romance. By Percy Brebner. Illustrations by F. Voux Wilson. Published by Little, Brown & Co., Boston.

No one is Mr. Brebner's superior in the telling of modern romance, and this tale of intrigue and love and danger, of startling and pleasant and strange situations is the best romance he has written since his popular story, The Princess Maritza. The hero—big, good-natured, and above all else courageous, an exile from his native land, is a trooper in the King's Guard at Drawstadt, in Saxe-Oldenburg, when the romance that he is unconsciously awaiting comes to him in assisting a charming maiden in distress. Saxe-Oldenburg is a romance country, ripe for revolution, and there follow plots and counter-plots, the scurry of hoofs, the clash of swords; and things happen swiftly and with unexpectedness until finally Trooper Heselton reaches the kingdom of his desire and the delightful heroine turns out to be not what she seems at all, but still a woman true and loving. And the fight in the banquet hall, the strange happenings at the Castle of Syere, Heselton's escape from the castle dungeon, and the combat in the forest on which a woman's happiness is staked—these are thrilling enough to take your breath away. So, if you like a tale of dazzling love and daring adventure here is just the story you've been waiting for.

Joyful Heatherby.

Joyful Heatherby—By Payne Erskine. Illustrations by M. Leone Bracker. Published by Little, Brown and Co., Boston.

This splendid novel is Payne Erskine's masterpiece, a story so full of the struggle and strength and interest of life today that it stirs our emotions deeply while it delights us with its unusual plot and masterly character drawing. The scenes are chiefly laid in Boston and in a small New England coast town, the leading characters being an artist and a delightful country girl whose charm and innocence will appeal strongly to every reader who comes to know her. The perfect type of unspoiled American womanhood, Joyful is as charming a heroine as has been portrayed in fiction in many a day. To tell the story of this thrilling romance in detail would be to lessen the reader's pleasure in one of the most remarkable novels of recent years; it must suffice to say that Joyful Heatherby is a strong and appealing love story, in which people of rare quality are pictured and some of the most vital problems of the day are handled illuminatingly and inspiringly. Especially it shows the charm of a nature so educated and fortified by its instinctive comprehension of beauty and goodness that nothing can harm it.

Plant and Animal Children.

Plant and Animal Children: How They Grow. By Ellen Torelle. Published by D. C. Heath & Co., Boston and New York.

This book attempts to express in simple language the essential facts and principles of growth and development in plant and animal life and to show the relation of these facts and principles to human life. It is written especially for children. It aims to make clear the ideas of evolution, heredity, variation, effect of environment and the evolution of sex, without once mentioning these names.

Children who have studied this book will certainly have a broad appreciative basis for all their subsequent work in biology. This is especially true with reference to that work in agriculture which secondary and even elementary schools are now handling with difficulty because teachers and children have not the access to such books as Plant and Animal Children. The schools need it. Many school men have been looking for just such a book.

Gnomes of Saline Mountains.

The Gnomes of Saline Mountains—A Fantastic Narrative. By Anna Goldmark Gross. Published by the Shakespeare Press, New York.

The scene of this story is laid in the Old World, and the author's familiarity with life in the great cities, watering places and rural resorts of Austria and Germany has enabled her to paint an interesting and instructive background to the romance. It is real life that is pictured, notwithstanding the introduction of the gnomes. There is great human sympathy running through the pages, and the reader is enchanted by the story. The choice language of this gifted authoress gives an added charm to the work. The numerous readers of Mrs. Gross' magazine stories will be pleased to see this longer work from her pen, and they will not be disappointed.

Trust Companies of the U. S.

Trust Companies of the United States—1912 Edition. Compiled and Published by the United States Mortgage and Trust Company, 55 Cedar street, New York.

The record of trust company achievement has never been more strongly marked by constantly increasing evidences of a rare combination of progressiveness and conservatism than during the year ended June 30, 1912. More and more clearly has it been shown that the trust company's functions and its opporunities are capable of a legitimate expansion unrealized in former years. As a result the trust companies of the country stand higher today than ever before in public confidence, material resources and usefulness, to the communities they serve.

Making of a Newspaper Man.

The Making of a Newspaper Man, by Samuel G. Blythe. Published by Henry Altemus Company, Philadelphia. In this volume the author relates his experience from his boyhood in striving to be a newspaper man. He becomes a reporter, and after a while he joins with one of his colleagues and buys a country weekly paper, which turns out to be a gold brick, and he tramps back to his old job, wiser and poorer for his experience. In the last chapter he gives much good advice to those of his readers who aspire to journalistic fame. The work is hard, the pay not large, but the advantages are many and the opportunities are waiting.

Auction Bridge.

The Principles, Rules and Laws of Auction Bridge. Explained and Illustrated by J. B. Elwell. Published by Charles Scribner's Sons, New York, and for sale by the Eichelberger Book Company, Baltimore.

The author's aim in this new volume has been to give a clear and practical exposition of the principles of auction bridge as it is played today, such as will enable the ordinary reader to gain a good understanding of the game. At the same time much will be found of value to the expert player who desires to acquire a more complete comprehension of the underlying theories of auction.

Saints and Place.

Saints and Places, by John Ayscough. Published by Benziger Brothers, New laurel to the fame of the author. An extensive traveler, his descriptions of the places he has visited and the saints that they recall are told with a delightful freshness entirely foreign to the usual pedantic volume of travel. His pictures are vivid and the manner of painting brilliant. Philosopher, poet and cultured writer, he is a wit of high order, and his delicate humor enhances the charm of the work.

January Sale---Embroideries, Laces & Women's Neckwear

Months ago we planned this wonderful sale of rich embroideries, flouncings, allovers, laces and women's neckwear. Our buyer had his weather eye open and picked up bargains in these lines wherever he could, put them away and saved them for this great January sale. The result is that we offer, beginning with today, embroideries, laces and women's neckwear at 50c on the dollar and less. Don't miss this great sale, for it means great savings to you.
