Great Fire Visits the Water Front at Savannah, Ga.

THE LOSS IS OVER $1,000,000

FLAMES BEYOND CONTROL OF FIRE DEPRATMENT.

The Fire Started in a Rice Mill Between 1 and 2 o'Clock This Morning—The City's Electric Light Plant Threatened in the Rapid Advance of Flames—No Lives Were Lost, As Far As Has Been Learned—The Fire Area is Two Blocks Wide and a Quarter of a Mile Long.

Savannah, Ga., February 2.—Fire which originated in a rice mill near the water front at 1:45 o'clock this morning rapidly swept toward the Merchants and Miners' Steamship Company wharves, and half an hour the docks were burning.

Later efforts of the entire fire department and harbor fire boats were unable to check the flames.

The Merchants and Miners' wharves, including warehouses and freight were totally destroyed. It is estimated the loss will approximate $1,000,000.

The old Planters' rice mill, one of the historic structures of the city, was burned.

The fire threatened the electric light and the new $1,000,000 power plant of the Savannah Electric Company. So far as known there is no loss of life.

The wharves destroyed are owned by the Central of Georgia Railway, but are used by the Merchants and Miners' Company.

At 3:15 the fire had covered an area two blocks wide and nearly a quarter of a mile long and still was unchecked.

No shipping was destroyed.

Efforts are being made to save the electric and power plants, which are most in danger.

The ocean steamship company has large wharves near the scene of the fire, but the flames are sweeping in another direction, and it is believed these wharves will not be endangered.
