CAMBRIDGE:

MONDAY, MAY 8, 1837.

John McKinley of Alabama has been appointed by President Van Buren, one of the associate Judges of the supreme Court, in the place of Judge Smith, who has declined serving. Mr. McKinley, was elected by the last Legislature of Alabama, U. States Senator, in the place of Gabriel Moore. He is well known as a gentleman of distinguished abilities, and of the most inflexible democratic views.

It will be seen from a publication in our paper, of to-day. that many gentlemen of this county, have lately associated together, for the purpose of promoting the agricultural interests of the county, by the formation of a Society designed to distribute premiums and thereby foment zealous and laudable competition, in developing her resources and giving a higher tone to her agricultural character. Such attempts have invariably been attended with the happiest results. They not only engender a greater fraternity of feeling, amongst the farming class, but in many instances, from the increased exertions of those competing for premiums, the best practical information, in regard to the kind of crops, congenial to our soil and climate, is obtained. The agricultural pursuits of our county, have been in a most languishing condition, and if this effort to improve them, should be successful, all classes of our citizens will be gratified. The able report of the Committee presents a comprehensive view, for the consideration of our farmers, and others interested in this branch of science. It will at once, by its cogent reasoning, arrest attention. We wish the society great success. Every one having the welfare of old Dorchester at heart, should take an absorbing interest in its prosperity, because it is well calculated to improve her condition and circumstances. We invite attention to the proceedings of the meeting, lately held in this place, a full account of which, will be found on another page.

The Money Market.—From the last accounts received from New York, New Orleans and other cities, it appears that the money market is much easier, and that the storm has in a great measure abated.

Carroll County.—This new county has been organized. The Clerk, Register, Sheriff, and other officers have been appointed.—Westminster is the metropolis, at which place as soon as possible, the necessary public buildings will be erected. From the character of the people composing that district of the State, and from the resources of the county, we entertain not a doubt that it will soon be one of the most flourishing sections of Maryland.

Reform.—From the almost universal disposition of the people of Maryland in favor of a wholesome and radical reform in her Constitution, we have no doubt of its success.—Few men who look to the people for countenance and support, will venture to raise their voices against this wise and indispensable measure. In a very short time, there cannot be a reasonable doubt that the views and wishes of the people will be carried into effect, and Maryland will stand reformed, redeemed and regenerated by the irresistible voice of her citizens. 'Tis a result all good men should desire, because at present she is far below par.

The late Elections in New Hampshire and Rhode Island have resulted in the complete triumph of the Administration party, by increased majorities. We have not yet received full returns from the election in Virginia, but as far as heard from, we see from an article in the Globe, they have *in the main*, given the Administration, a majority. In the Norfolk District, the whig candidate for Congress. from the partial returns received, is ahead about 250 votes—the Isle of Wight District to be heard from, which has heretofore given the administration a majority, of about 400 votes. Should it so result in the present instance, the Van Buren candidate for congress, will be elected in that district. It may as yet, be considered uncertain.

Distress.—Notwithstanding the great hue and cry about the hard times and the disasters of trade in the cities, we discover from the papers, that the Theatres and other fashionable places of amusement are thronged with visiters. Alarm and consternation have not as yet, it seems, overtaken the play going gentry. Nero of old, fiddled, and probably others might have danced, whilst Rome, was enveloped in flames.

A man on visiting his friend observed to him, 'when I first saw your wife, she was a very modest and submissive dame. She now uses her tongue pretty freely. There was a time when I half imagined she had none.' 'Yes,' said the other with a sigh—'but it is very *long since*.'—Boston Pearl.

April Snow Storm.—There was a prodigious snow at St. Louis on the 3d inst. The Republican of that place says, "it has no parallel in the memory of the oldest citizens." The snow fell to the depth of seventeen inches.

Notice.

All persons who are indebted to me for fees, or upon writs of venditioni, will please to pay me or my deputies, *on or before the 1st day of June next*. As I have patiently waited until the present time, (although much in want of money to meet my liabilities) it is hoped this friendly suggestion will be sufficient to induce all to come forward, promptly, and settle. The various amounts are comparatively small, but when I get them all in hand they will be of much moment to me. Those who neglect this timely call, need not be surprised nor offended, if they find their property advertised—a step, however unpleasant, yet rendered necessary in justice to myself, my family, and securities.

A GREAT PRESSURE IN THE MONEY MARKET

WHITE & ANDERSON,

HAVE just received one of the largest assortments of new and fashionable

GOODS,

ever opened in this market. As they have purchased them at reduced prices, (owing to the great pressure complained of by the city merchants,) they are now determined to sell them cheap for cash, and to such customers as make us speedy payment, as that is the only way to enable us to purchase and sell cheap. Our customers and the public generally are invited to give us an early call, if bargains is an object with them.

N. B. All that are indebted to White & Anderson for goods sold last year, are requested to make early payments, as their accounts are *now* ready for settlement.

TAILORING.

The Subscriber

BEGS leave respectfully to announce to his friends and the public, that he still carries on the

TAILORING BUSINESS
IN ALL ITS DIFFERENT BRANCHES,
At his old stand, in Cambridge.

He has lately procured *A NEW SYSTEM OF CUTTING OUT GARMENTS*, which has never been used before in this part of the State. It is adjusted upon a mathematical principle, and cannot fail to succeed in all cases. Upon this plan, the science of cutting clothes is no longer uncertain, and dependent upon the eye and accident, for a good fit. It is as unerring as the truths of geometry. He congratulates himself and his friends upon the possession of this long-sought desideratum. He is prepared to make up clothes for his patrons in the neatest and most fashionable style, having made an arrangement to procure the

Latest New-York Fashions

of the season. His work shall be finished in the best manner, and he warrants his garments to fit. Having been located in this place for the last twelve years, he returns his acknowledgements to his friends and the public, for the flattering encouragement they have bestowed upon him. He pledges himself to to devote his most assiduous attention to accommodate those who entrust work to his care. In conclusion, he invites all to call, and he flatters himself that they will be entirely satisfied that he has promised nothing but what he will most rigidly fulfil.

VALUABLE LAND FOR SALE.
(*in Somerset County.*)

THE subscriber offers for sale all his land lying and being in Somerset county, on Barron Creek, near the "Spring." It comprises several tracts or parcels of land, contiguous to each other, containing in the whole

340 ACRES,

more or less. The improvements upon the same are a two story Dwelling House, near the water, at which there is a first rate landing place—a new store house, considered to be a good stand for business.—also an orchard, affording most excellent fruit. There is another dwelling tenement upon the property, immediately adjacent to the water, with a very thriving orchard of young apple trees annexed. About 70 or 80 acres of this land is cleared, the greater part of which is good for a corn crop—the residue of the property is covered with oak, chesnut, hickory, pine, and gum timber, suitable for vessels, cord wood, &c. The title is in fee simple, and clear of all disputes and incumbrances.—The property being in a county in which I do not reside, induces me to dispose of it, provided I can get something like the value of it. I will sell it if applied to, on reasonable terms, and if not sold at private sale by Friday the 28st of April next, I will offer it on that day at public sale on the premises, at the hour of 12 o'clock.
