CAMBRIDGE:

MONDAY, MARCH 26, 1838.

Since the trial by lot has been determined in the Legislature in favor of the E. Shore, in relation to the District from which the next Governor is to be selected, we have heard the names of several gentlemen spoken of, as likely to become candidates of the whig party, to wit: Gen. Emory, of Q. Annes, the Hon John Leeds Kerr, of Talbot, Gen. Potter of Caroline, the Hon. John N. Steele, Dr. Nicols, John C. Henry and Thomas I. H. Eccleston, Esq. of Dorchester, Ex-Governor Carroll of Somerset, and Dr. Martin of Snow Hill, Worcester County. No doubt our adversaries, with a view of settling the claims of the various candidates, will have a convention. On our side, we have yet heard but of two gentlemen spoken of, Mr. Grason of Q. Annes and Mr. Lloyd of Talbot. We too shall have a convention shortly to arrange matters, and be ready for the fall campaign, when we expect to beat our opponents horse, foot and dragoons.

We have received Mr. Benton's speech on the Sub-Treasury bill, which is replete with facts and figures unanswerable. It contains the very best sort of logic, and we shall endeavor to publish a portion of it in our next paper.

MAD DOGS.—The public should be on their guard, there are mad-dogs roaming about in the County

We have received several numbers of the "United States Magazine and Democratic Review." The work is printed in a neat style, and judging from the ability with which it appears to be conducted, we have no doubt that it will be quite an acquisition to the intelligent periodicals of the day. Chaste in disseminating correct principles, and so far as the Administration of Government is concerned, advocating with firmness, that, wherin, the republican policy is predominant, it must rank amongst the highest literary and political publications of the country.

The Legislature have passed the odious and arbitrary Registry Bill which is to be enforced in the city of Baltimore alone. The Democracy of that city have almost invariably proved victorious over the combined odds and ends, now constituting modern whiggery. The whigs at Annapolis probably calculate that this expedient of theirs may be the means of reversing the current of popular suffrage, but judging from the feeling evinced, and the unrighteous character of the measure, we have not the least doubt, that the Republicans of Baltimore, will rally with more than their usual strength, and put to flight all the barbarous tribes of whigs, who would manacle and fetter the elective franchise.

MR. CLAY AND THE BANK.

Mr Clay evidently founds his hopes of attaining to the Presidency, on the renewal of the old federal Bank. We are willing to let his success rest on that issue.

If, then, Mr. Clay be elected, we shall also have a National Bank, and probably its favorite accompaniments—a high and partial Tariff, and INTERNAL IMPROVEMENTS.

I hope that the federal and the democratic papers, will consent to publish these few lines in capitals. They contain a fair test question for the people to act on. K.

Boston Advocate.

Ruling Passion.—Gen. Jackson has been attacked with severe bleeding at the lungs, but apprehending that the supposed certainty of his death would induce Van Buren to believe that the Bond was cancelled, he props himself up in bed and writes to Blair that he is getting better. "Aint dead yet—hold on to the reins until Pluto comes." What kind of a patriot must he be whose death would create rejoicing and lead to prosperity throughout the land.

☞We challenge the exhibition of a more fiendish, Hyena-like spirit than that displayed in the above extract from the high organ of whigism, that purchased and purchasable press, the New York 'Evening Star.' It is a disgusting stain on human nature, that the wretch who in cold blood could write such an article, should be admitted as a leader of any political party in a civilized country. But so it is. And there are men of that party, too, who call themselves christians, who will chuckle with delight over such belchings of hellish malignity.

☞We are pleased to see how generally the resolutions of Mr. Grason in relation to the currency, are copied by Democratic papers. In the words of the "Globe," they are "fitted to stand as articles of a political creed for Republicans," and as such, they receive the highest encomiums from our friends in every quarter. It will be a proud day for the party in Maryland, if by their united energy and determined spirit they shall be able to put such a man as William Grason in the Executive Chair of the State. It would be really a triumph of "intellectual aristocracy" over its bastard counterfeit, imbecility and assumption.—*Balt. Republican.*

COMMUNICATED.

At a public Commencement held by the Regents of the University of Maryland on the 9th of March, 1838, the honorary degree of M. D. was conferred upon our fellow citizen Doctor Joseph E. Muse. It is a rule which prevails among all Colleges and Universities, that honorary degrees may be conferred in cases where there is extraordinary merit. A short time ago the degree of A. M. was conferred upon the same gentleman, by the Faculty of St. Mary's College. Unless for extraordinary merit and extensive scientific attainments, such honorary degrees are never bestowed. Such manifestations of respect for the scientific acquirements and merits of Doctor Muse, and too, from such high sources, must doubtless be highly gratifying to his friends. AMICUS.

TOBACCO STICK, March 24th, 1838.

MR. EDITOR: Will you have the kindness to give the following report a place in your paper; we whose names are subscribed below believe it a duty we owe to our enterprising friend, Dr. McGehee, to report to the public in regard to the opperation of his Horse Power Circular Saw-Mill. On yesterday we witnessed its operation and do not hesitate to say that we are entirely satisfied in regard to the assertions that he has made concerning his mill, to wit: that two able draught horses will cut a thousand feet of lumber, or thereabout, in ten hours time. In regard to the quality of the Lumber we have never seen any kind of a saw cut lumber as smooth as his Mill.

He would like to sell to some individuals a privilege of one half or three fourths of his Patent, for several States, in such an arrangement, the payments will be easy. He refers to the report of some gentlemen of Tobacco Stick, in regard to the draft on horses and the amount of business done in a given time.
