CAMBRIDGE:

MONDAY, AUGUST 20, 1838.

REPUBLICAN NOMINATION.

FOR GOVERNOR OF THIS STATE,

WILLIAM GRASON,

OF QUEEN ANNES COUNTY.

REFORM CANDIDATES.

We are authorized to announce.

Thomas Breerwood, Esq.

AS a candidate to represent Dorchester county in the next Senate of Maryland.

We are authorized to announce.

John Rowins, Esq.

As a candidate to represent Dorchester county in the next General Assembly of Maryland.

We are authorized to announce

William Geoghegan, of Jno.

AS a candidate to represent Dorchester County in the next General Assembly of Maryland.

We are authorized to announce

Phillip H. Graham,

As a candidate to represent Dorchester county in the next General Assembly of Maryland.

July 30th 1838

☞The Orphans' Court of this county, will sit on Monday next. 27th inst.

The Bucktown Convention has nominated Thomas I. H. Eccleston esq. for the Senate and Henry Page, H. L. McNamara, Whitefield Woolford esqrs. and Dr. Joseph Nicols for the House of Delegates. This then, we suppose, is the whig ticket, and it remains to be seen whether the people of this county will ratify the nomination. We learn that the names of ten candidates were handed in to that Convention for selection, from amongst which the above ticket was made out. Some of the whigs appear to be great advocates for the late school law, it seems somewhat singular therefore, that Mr. Tall, who no doubt took great pains to get the shcool law passed, and who in fact, is considered the father of the law, should not have been brought out for re election, as we have understood his name was handed in to the Convention. The whigs have in this respect taken a very peculiar way of shewing their great regard for the Primary School law, we must confess.—Perhaps they may be able to explain this particular, to the people of Parson's Creek District, or at least that portion of them, who go their death for this same school law. It is immaterial to us who the whigs bring out, but we must notice the signs of the times as they exhibit themselves.

NORTH CAROLINA.—Mr. Dudley, in this State has been re-elected Governor, judging from the returns we have received, and we think it probable, there will be a majority of Administration members elected to the Legislature. In some counties of that State, there has been a change in our favor. We have not yet received full returns of the result.

ALABAMA.—We have received partial returns from the election in this State, and they are of a cheering nature. In the town of Mobile, where the whigs have had a majority heretofore, our friends have achieved a most *triumphant* victory. We have no doubt the result throughout the State, will shew, that whiggery, in that quarter, is in a very feeble condition.

SPECIE PAYMENTS.—The Banks have very generally commenced paying specie, and all are preparing to do so. The whigs have said that the Banks required a great regulator, and would not pay out specie, until a National Bank was re-established and compelled them. Does not the present fact, that they have resumed specie payments without such a regulator, put to the blush, the argument of the whigs, that a National Bank could alone coerce specie payments?

Our co temporary, the Village Herald, is so very poetical on almost all occasions, that it is quite amusing to look over its contents. Some of the quotations, however, from the immortal Shakespeare, and other of the distinguished poets, look somewhat ludicrous we must confess, from the manner, in which they are applied and from the company they appear in Yet there is no disputing about tastes, and we must of course, leave our neighbor, to his own peculiar fancy, however singular that fancy may be. We see too, the Herald has taken to writing epitaphs. It is a little wonderful, that this too, had not been interspersed, with a sprinkling of poetry, or rather blank verse. If the Herald would say its prayers, a little more devoutly, (we dont mean that it should say them in poetry) we think it might be somewhat better qualified for inditing obituaries. We see from an article in that paper, that our advice has been taken or anticipated, in regard to Barren Creek Springs, for our worthy friend Fish, has received from that quarter an excellent puff, which he deserved. Here is one point gained. We hope these waters have had a good effect, in giving our neighbor a fine appetite, for we should very much dislike to be under the necessity of writing his epitaph, by way of reciprocity, of course.

The witling correspondents of the Chronicle are dealing in that kind of trashy slang and coarse invective, which merits the indignation of all persons who have any respect to decency. We regret to see that paper lending its columns to the propagation of such senseless stuff as can neither improve the morals of its readers nor enlighten their understandings. If it require such vulgar matter to support their party, it indeed must be in a dilemma. Notwithstanding there are Editors to that paper, to notice our aberrations, if any, yet these correspondents officiously usurp the place of the Editors & meddle with us. Then they complain if we give a passing notice to their blunders. They have commenced it, and we are sorry that we have occasion to refute their misrepresentations. If the correspondents of the Chronicle, whether one or a thousand, are disposed to comment in a proper manner upon our effusions, we certainly cannot object, and if necessary, we will reply to them, in a suitable way. But if they are bent upon leaving argument and reason out of the queston, and resorting to miserable and petty balderdash, we may or may not, give them any public notice.—This shall be as we are in the humor. The great object of newspaper writing should be either to instruct, enlighten or edify the public.—These writers certainly will agree with us, upon reflection, if reflection they have, that their composition savors of any thing rather than of dispassionate and respectful discussion.

Our neighbor of the Chronicle seems to harp a great deal, upon the subject of Reform, since we published Mr. Steele's votes It discourses much about our saying that Mr. Grason, had been a thoroughgoing friend of Reform, and thinks we were at fault because many years since, when the question was not generally agitated, he had voted against certain Reform propositions. They are as silent as can be, in regard to their *denial* that Mr. Steele had been *an anti Reformer*. This was at first the issue between us, which they have with some adroitness changed, by extracting Mr. Grason's votes. What are the facts. Ever since Reform has become a *general* question in the State, and it was made so at the last Senatorial election, we find Mr. Grason supporting Reform and Reform candidates Can the same be said of Mr. Steele. They know it cannot. He has been recognized, when the question was a pervading one, as an unyielding anti Reformer. Where is the evidence that he has ever changed? If he has changed his views, (and we have not heard it said that he has) he did not do so, until compelled by the imperial fiat of the voice of the people. Let the Chronicle adhere to the true issue.

The resumption of Specie payment by the Banks is indeed a democratic triumph. The federal whigs being unable to extort from the sufferings of the people a National Bank, have bowed at the eleventh hour to those of their rights, which have been so long and so fraudulently withheld.

Who proposed to our last Legislature the month of July as the period for the payment of Specie by our banks? WM. GRASON

Who voted down the measure? the Whigs.

Who said it was the "duty" of the Legislature to restore a specie circulation to the people of Maryland "so that they may not be compelled by the laws, to pay in gold and silver, while they are compelled by the banks to receive irredeemable paper." William Grason.

Who said it was not? The Whigs.

Thus we see that Mr. Grason, the unflinching friend of the people's interest, was for rendering to them a right which was denied by the Whig party; and though they rejected Mr. Grason's propositions, and adopted one of their own placing the day of resumption so far off as January next, they have the effrontery to claim the credit of bringing about an early resumption, almost exclusively for themselves. The people will not forget the man who was not unmindful of their best interest, though opposed by an overpowing majority of self-style whigs Wm. Grason's patriotism & sound political sagacity render him capable for any emergency. He is just such a man as would fill the Gubernatorial Chair of the State with honor to himself, credit to the the State, and with interest to the people.—Easton Whig.

The difference.—The Federal Whigs are for making the common people honest by the force of law, and sustaining the Banks in dishonesty without law. The Democrats, the true Jeffersonian Republicans are for making Banks and people all honest alike.—Columbus Statesman.

Major Waterman's Toast.—The Fair of Vermont—Although we acknowledge no tyrant or conqueror, yet to *them* we will freely resign our *arms*.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of the British College of Health, London. Manufactured in this country in their original purity by H. SHEPHEARD MOAT, eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the liver, yellow fever, gout, rheumatism, lumbago, tic doloreux, dropsy, St. Vitus's dance, epilepsy, apoplexy, paralysis, palsy, green sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; small pox, measles, whooping cough, scarlet fever, asthma, jaundice, gravel, stone, and all urinary obstructions, fistula, piles, structures, ruptures and syphilisis in all its stages; constipated bowels, worms, scurvy, itching of the skin, kings evil and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and names; as the Hygeian conviction is, that *man is subject to only one real disease*, that is, to the IMPURITY OF THE BLOOD, from which springs every complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its viscious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain, exhaustion or bodily strength, and without the fear of catching cold or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken in excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as the body; first calming, then curing all mental derangements, eccentricities, nervous affections, irritabilities and restlessness, from whatever source,—complaints, which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind discovered a cheap and universal mode of purifying, curing and preventing

The being cured of any disease, infirmity, orsore, is now no more a dubious or uncertain proceedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1, and No. 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No. 2 Pills carry off those and the serious acid and putrid humors, incidental to the body: and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimonious phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The powder in boxes 37 1-2 cents.

CAUTION.—Medicines of such great virtue as these, have been, and will be most certainly counterfeited. To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures of the agent for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morisoniana 2 vols. 8vo—price $2,75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37 1-2 cents. And just published.
