CAMBRIDGE:

MONDAY, OCTOBER 1, 1838.

REPUBLICAN NOMINATION.

FOR GOVERNOR OF THIS STATE,

WILLIAM GRASON.

[Election 1st. Wednesday in October.]

REFORM CANDIDATES.

FOR THE SENATE.

THOMAS BREERWOOD.

FOR THE ASSEMELY.

JOHN ROWINS,
PHILLIP GRAHAM,
GEO. A. Z. SMITH,
WM. GEOGHEGAN.

To the polls, Freemen of Dorchester, and like true patriots rally with a zeal and energy, shewing that you are determined no longer to submit to the miserable and profligate misrule which have been hanging over the State, for the last seven years, like a mighty incubus. The day after to morrow we believe will be a glorious era in the annals of Maryland. Fifty thousand votes will be polled, we have no doubt, and from the cheering indications which exhibit themselves on all sides, we have a bright harbinger of the triumph of William Grason and Reform.—The city of Baltimore, (where the Whigs have calculated upon their hundreds of majority) we believe, will nobly do her duty.—There is a spirit and life amongst the people there, which have completely spell bound the whigs.—Evidently they are dismayed, which is but a prelude to their overwhelming defeat. The Monumental city, will when her vote is told on Wednesday night, show that whiggery has no abiding strength within her borders. In every part of the State the people, yes the people, have risen in their majesty, and will go to the polls by hundreds and by thousands and demonstrate to the trained bands of official partizans, that they will no longer tolerate a continuance in power of those men who have ruled the State with a rod of iron. Let the independent voters of Dorset speak—Whiggery will have no cause to boast when her votes are told.—A fine feeling animates our friends. Let them, one and all, come to the polls early.—Let no one stay behind—let us have a full expression of opinion, and if the whigs get a majority of 250 in Dorset, we shall be most egregriously mistaken in the signs of the times.

We shall endeavor to put our readers in possession of the earliest news, of the result of the ensuing election. Probably we shall hear from a sufficient portion of the State, by Friday evening next, to be able to tell, how the election has terminated. At all events by this day week all the returns will have been obtained, in all probability, which we shall proceed to lay before our readers.

The election in Georgia takes place on the same day ours does. Pennsylvsnia, New Jersey and Ohio, have their elections to-morrow week. We shall soon hear from these great States, and in every one of them, we entertain the most sanguine anticipation of success. Maine has made a glorious report herself. When the voice of these other powerful States is heard, we believe it will be in most excellent keeping with the grand and magnificent result in Maine. If Maryland is redeemed from the blot of whiggery, what wo begone countenances, the whigs will exhibit. Indeed it will then be a distressing time, for them.

MR. STEELE.—In relation to the extract of a "Citizen" which we published in our last, about Mr. Steele's vote, in 1823, upon the subject of costs, the Chronicle remarks, "that it is a slander, and put into circulation, so near the election, that his friends have not an opportunity of disproving it." The communication of a "Citizen," which we inserted, we believe was made in the Baltimore Republican at least three weeks ago. Now that is a considerable time, before the election—certainly they have had an opportunity to refute the charge, if it were incorrect. The Chronicle however admits, that Mr. Steele voted to postpone a Bill brought forward, for the purpose of curtailing costs—and as an excuse for this vote, says it was thought by a great many persons that a law then existed to *nearly* (how near) the same effect, made about forty years previous to the above mentioned law? you don't say so! A great many persons thought forsooth so and so! Laughable indeed. This is a poor apology for Mr. Steele's vote. If there had been such a law, Mr Steele must have known what had been the practice under that law, and certainly the stronger the law could have been made upon the subject, the better.

The fact is, the Chronicle, no doubt, feels that it was an unfortunate vote of Mr. Steele, and makes, like a good soldier, the best excuse he can for his friend Mr. Steele. Well Mr. Chronicle, we wont blame you for this, but, if he made the vote he did, which we publish and which you admit, in what respect, is Mr. Steele slandered? Why your own sense, certainly, will tell you that you are slandering, the "Citizen" who published the vote, which you admit. Now, is not this the sober truth? Fair play is a jewel, you know.

☞The New York "Star" is down upon the "Atlas" for coming out for Harrison. If Webster is withdrawn, then Clay alone ought to be considered in the field. The hoco-pocos have all got at loggerheads, and while some throw out insinuations on one side, others meet them with sharp retorts. They have already got to discussing the question again of a convention, & the upshot of the whole is, that they are in as pretty a Presidential making scrape as would one wish to see.

VALUABLE LAND

FOR SALE.

BY virtue of a Decree of the High Court of Chancery, I will offer at public sale, to the highest bidder, at the Court House door, in the town of Cambridge, on *WEDNESDAY* the 17th day of *OCTOBER* next, at the hour of 11, (A. M.) the following valuable Real Estate of which Levin Phillips died seized and possessed, to wit:—The tract or plantation upon which the said Levin Phillips resided at the time of his death, called "Chance," containing

224 ACRES,

more or less.

This property is well situated on Fishing Creek, in Town Point Neck, about six miles from Cambridge. Rather more than one half of the tract is arable land, and very productive—the residue is covered with timber. The improvements are excellent, being nearly new, consisting of a two storied Dwelling House, with the necessary outhouses. There is also a Wind Mill upon the premises, and a thriving young orchard—A never failing well of delightful water, adds much to the comforts of the situation. The finest fish, oysters, and other water advantages, are easily procured. This location is in every respect an attracting one, being in a very agreeable neighborhood, and unsurpassed by any place in the county in point of health. Those persons wishing a desirable residence, on salt water, will consult their interest by attending to this sale, as it is rarely the case that such property is found in the market.

Also, a tract or parcel of land, called "Rosse's Range," containing

170 ACRES,

more or less, upon which the said Levin Phillips formerly resided, situated in Ross' Neck, and on little Choptank River, the waters of which are bold and navigable, allowing a vessel of large size to lie within 150 yards of the shore—about one half of this property is cleared, the residue is covered with a fine growth of young timber. The improvements consist of two single storied Dwelling Houses, detached from each other; kitchen, barn, carriage house, stables, &c.—There is also an excellent orchard on the premises.—The adjacent river abounds in oysters, fish, wild-duck, &c. This situation has convenient sources of improvement in great abundance. It is now divided into two residences. To a person engaged in the vessel business, this property offers great attractions. The above tracts will be sold subject to the widow's right of dower.

The terms of sale are one fourth cash, the residue on a credit of six and twelve months, with interest on each instalment from the day of sale, to be secured by bond, with security to be approved by the Trustee. Whenever the whole purchase money is paid, the property will be conveyed to the purchaser or purchasers

General Agent for Pennsylvania, Maryland, Delaware, &c. No 3 1-2 south 7th st. three doors below Market st. Philadelhia, and No 10 North st. Baltimore, near the Post Office.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of the British College of Health, London. Manufactured in this country in their original purity by H. SHEPHEARD MOAT, eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the liver, yellow fever, gout, rheumatism, lumbago, tic doloreux, dropsy, St. Vitus's dance, epilepsy, apoplexy, paralysis, palsy, green sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; small pox, measles, whooping cough, scarlet fever, asthma, jaundice, gravel, stone, and all urinary obstructions, fistula, piles, structures, ruptures and syphilisis in all its stages; constipated bowels, worms, scurvy, itching of the skin, kings evil and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and names; as the Hygeian conviction is, that *man is subject to only one real disease*, that is, to the IMPURITY OF THE BLOOD, from which springs every complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its viscious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain, exhaustion or bodily strength, and without the fear of catching cold or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken in excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as the body; first calming, then curing all mental derangements, eccentricities, nervous affections, irritabilities and restlessness, from whatever source,—complaints, which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind discovered a cheap and universal mode of purifying, curing and preventing

The being cured of any disease, infirmity, orsore, is now no more a dubious or uncertain proceedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1, and No. 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No. 2 Pills carry off those and the serious acid and putrid humors, incidental to the body: and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimonious phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The powder in boxes 37 1-2 cents.

☞CAUTION.—Medicines of such great virtue as these, have been, and will be most certainly counterfeited. To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures of the agent for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morisoniana 2 vols. 8vo—price $2,75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37 1-2 cents. And just published.

The Mother's Book of Hygeian Midwifery, by H. Shepheard Moat, of New York

☞Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No. 3 1-2 SOUTH SEVENTH STREET, three doors below Market Street, Philadelphia—and at No. 10 North street, Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.
