CAMBRIDGE:

MONDAY, OCTOBER 8, 1838.

VICTORY! VICTORY!!

ALL HAIL! MARYLAND ERECT!!!

WE HAVE MET THE ENEMY & THEY ARE OURS AFTER A HARD CONTESTED BATTLE!!

WILLIAM GRASON, FIRST GOVERNOR ELECT, UNDER THE REFORM CONSTITUTION, BY UPWARDS OF 400 MAJORITY!!!

MAY HIS ADMINISTRATION BE AS SUCCESSFUL, AS HIS ELECTION HAS BEEN TRIUMPHANT.

IN ALL PROBABILITY A MAJORITY ON JOINT BALLOT WHICH WILL GIVE US A UNITED STATES SENATOR, GOOD AND TRUE!! GLORY ENOUGH FOR ONE DAY!!!

The accounts for the State Senate are incomplete. We hear there are two *independent Senators*. As regards the House of Delegates we learn, there are two ties, one from Kent and the other in Frederick. and it is said the election of the whig delegate from Annapolis will be contested. In our next, we shall endeavor to give complete returns.

THE LATE ELECTION.—For the first time in the history of the State the people went to the polls on Wednesday last, for the purpose of choosing their Chief Magistrate. The day was fine—a glorious sun shone bright upon the Freemen of Maryland—there was a full and unprecedented turn-out—necessarily as complete an expression of public sentiment, as could well have taken place. On our side we had to contend with the thousands of whig office holders of every grade, with all but few exceptions, of the Judges of elections, with their prejudices against us. However, honest and well disposed the Judges of election may be, they are but frail men, and where they are nearly all on one side, it gives a decided advantage to that side. For us to have succeeded under these circumstances, there must have been a deep, powerful and efficient effort on the part of the Republicans of the State. To have effected a victory, with such odds against us, there must have been a very decided and omnipotent majority on our side. The free and independent voice of the people has been heard in tones of thunder—the language spoken cannot be misunderstood, and must be felt. The whigs are prostrated.—They have been weighed in the balance and found wanting. It is not our purpose now to recriminate—if we had been defeated, we should have bowed in submission to the will of the people—having succeeded, we shall wear the laurels of victory, with becoming modesty and self respect—We glory in the triumph of our principles, not in the downfall of men. We record events, that make epochs in our annals, under the guidance of that philosophical influence, which will not suffer too great depression from defeat, nor too much elation from a glorious triumph. In looking back upon the past, we have no cause to regret a single feature in our course. We have endeavored firmly and faithfully to discuss principles and measures.

The election is over—it will have its due effect upon the succeeding elections in other States. We publish the returns as far as heard from. Mr. Grason is elected by a handsome majority. The returns for the Senate and House of Delegates are not so complete as for Governor. We have strong hopes of having carried both branches of the Legislature, by a small majority.—We shall soon hear for certain. In this county we were disappointed in one District (Lake's,) which we thought would have given us a stronger vote, and brought Mr. Steele's majority here, down to about 200—as it is, we hold our own in this county. The fact of Mr. Steele being a citizen of this county, was used to some effect against us. The whigs were active—so were our friends.—Upon the whole if we had lost the State our condition would have been as it was—Having carried it, the whigs have lost all—the ascendancy—their money, &c. &c., and Maryland is regenerated, redeemed and disenthraled, by the omnipotent voice of the people, fully, completely and triumphantly expressed.

Vermont Election.—The first accounts we received from this state indicated the election of John Smith, one of the democratic candidates for congress. Subsequently we were led to doubt the correctness of the returns, indeed we had thought that although he had more votes than either of his opponents, still he had not a sufficient number by 15 to give him a majority of all the votes cast. The following, which we clip from the Burlington Sentinel, settles the question.

Fourth district.—It comes like drawing eye-teeth for the federalists to acknowledge that the Hon. John Smith, the democratic candidate, is elected to Congress in this district. They always were, and always will be, unbelieving dogs, so long as there is a peg to hang a doubt on. They are so sadly out of temper just now, on account of the total route of their party in Maine, that we almost fear to meddle with them; yet lest they may be too much disappointed in the end, for even whig endurance, we would just inform them that the official canvass will show the election of Mr. Smith by a small majority. Of this there is not a shadow of doubt.

DEATH OF GEN. WILLIAM CLARK.—It is with great regret that we announce the decease of this veteran. He expired in St. Louis on the 1st instant, aged about seventy years, having been gradually declining under the operation of age and disease for the last two or three years. Few men in the Northwest were more generally known, or more sincerely respected, than General CLARK. He had been prominently and constantly before the public for more than thirty years, and it is believed his integrity and honor were never impeached. When but seventeen years of age, he accompanied his brother, General GEORGE ROGER CLARK, in his celebrated & daring expedition across Illinois; and as early as 1790 was in the service of the Government as a confidential Indian agent. His connection with the Indians, in various capacities, continued till his death, at which time he was Superintendant of Indian Affairs at St. Louis. For many years, and up to the period when Missouri became a State, he was Governor of the Territory. In conjunction with Capt. MERRIWEATHER LEWIS, he performed the celebrated journey to the mouth of the Columbia river, and was consequently one of the first of our citizens that ever crossed the Rocky mountains. No white man has ever possessed as much influence with the North West Indians, by whom he was universally respected and confided in. In his death the Indian Department has sustained a loss which can scarcely be repaired, and with him perished a fund of information, in regard to our relations with the aboriginies, which can never be supplied from any other source. —*Globe.*

ALL DOUBT IS AT AN END.—We have swept Maine by an overwhelming majoirty. What say the Whigs now? Is Van Buren to be so easily put down? Is Clay so certain of the sceptre? Are the whigs so sanguine about the establishment of an unconstitutional mamoth National Bank? All eyes have been fixed upon Maine? The result is glorious to the Democracy. Whiggery reels under the blow, and soon will lie prostrate. The people of this country will never consent to have a fifty million Bank fastened around their necks for fifty years. They will never lay their liberties at the feet of such a latitudinarian as the champion of the Bank. Maine has struck a strong blow, and it will resound in New York and Pennsylvania, maugre all the hopes and predictions of the Whigs. The panic has passed, the pressure has abated, the reaction commenced with resumption, the Democracy will again rise with renovated vigor above the Whigs and the Whig Bank, and the Whig candidate for the Presidency.—*Richmond Enquirer.*

Sentences in New York.—The N. York Court of Criminal Sessions, on the 19th instant, sentenced 16 criminals, principally thieves, forgers, &c. to imprisonment, in the aggregate of 59 years!

Indictment of a Scolding Woman.—The Woodstock (Va.) Sentinel states, that at the last session of the Court for that county, the grand jury indicted a Mrs. ——, as a 'common scold.' The juries will have their hands full if they commence this game.

CAMBRIDGE, Md.
October 1st. 1838.

DEAR SIR: It was with no little surprise and mortification that I heard of your name being connected with a report derogatory to your character, and that it is said I am the author thereof. Whatever you may have heard, as coming from me concerning you, I positively declare to be false. I never to my knowledge ever had the pleasure of your acquaintance, nor, in fact, do I recollect ever having seen you in my life.

Hoping this declaration from me will be satisfactory to you, and will enable you to check the report, I beg leave to subscribe myself with sentiments of friendship your very humble servant.

GEO. A. Z. SMITH.

DEAR SIR: You will please publish the enclosed letter and this explanation to it in the Aurora next Monday and very much oblige your sincere friend.

The report alluded to in the above letter was, that I grossly insulted Mr Smith on the stand at Church Creek. So far from this being true I was not at the meeting, neither have I been to a political meeting this year, nor do I know Mr Smith by sight even. He will please accept my respects and thanks for so promptly contradicting the report.

Yours most respectfully,
JAMES L. DORSEY.

VALUABLE LAND
FOR SALE.

BY virtue of a Decree of the High Court of Chancery, I will offer at public sale, to the highest bidder, at the Court House door, in the town of Cambridge, on *WEDNESDAY* the 17th day of *OCTOBER* next, at the hour of 11, (A. M.) the following valuable Real Estate of which Levin Phillips died seized and possessed, to wit:—The tract or plantation upon which the said Levin Phillips resided at the time of his death, called "Chance," containing

224 ACRES,

more or less.

This property is well situated on Fishing Creek, in Town Point Neck, about six miles from Cambridge. Rather more than one half of the tract is arable land, and very productive—the residue is covered with timber. The improvements are excellent, being nearly new, consisting of a two storied Dwelling House, with the necessary outhouses. There is also a Wind Mill upon the premises, and a thriving young orchard—A never failing well of delightful water, adds much to the comforts of the situation. The finest fish, oysters, and other water advantages, are easily procured. This location is in every respect an attracting one, being in a very agreeable neighborhood, and unsurpassed by any place in the county in point of health. Those persons wishing a desirable residence, on salt water, will consult their interest by attending to this sale, as it is rarely the case that such property is found in the market.

Also, a tract or parcel of land, called "Rosse's Range," containing

170 ACRES,

more or less, upon which the said Levin Phillips formerly resided, situated in Ross' Neck, and on little Choptank River, the waters of which are bold and navigable, allowing a vessel of large size to lie within 150 yards of the shore—about one half of this property is cleared, the residue is covered with a fine growth of young timber. The improvements consist of two single storied Dwelling Houses, detached from each other; kitchen, barn, carriage house, stables, &c.—There is also an excellent orchard on the premises.—The adjacent river abounds in oysters, fish, wild duck, &c. This situation has convenient sources of improvement in great abundance. It is now divided into two residences. To a person engaged in the vessel business, this property offers great attractions. The above tracts will be sold subject to the widow's right of dower.

The terms of sale are one fourth cash, the residue on a credit of six and twelve months, with interest on each instalment from the day of sale, to be secured by bond, with security to be approved by the Trustee. Whenever the whole purchase money is paid, the property will be conveyed to the purchaser or purchasers

MORISON'S PILLS,
R. FENNER,

General Agent for Pennsylvania, Maryland, Delaware, &c. No 8 1-2 south 7th st. three doors below Market st. Philadelhia, and No 10 North st. Baltimore, near the Post Office.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of the British College of Health, London. Manufactured in this country in their original purity by H. SHEPHEARD MOAT, eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the liver, yellow fever, gout, rheumatism, lumbago, tic doloreux, dropsy, St. Vitus's dance, epilepsy, apoplexy, paralysis, palsy, green sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; small pox, measles, whooping cough, scarlet fever, asthma, jaundice, gravel, stone, and all urinary obstructions, fistula, piles, structures, ruptures and syphilisis in all its stages; constipated bowels, worms, scurvy, itching of the skin, kings evil and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and names; as the Hygeian conviction is, that *man is subject to only one real disease,* that is, to the IMPURITY OF THE BLOOD, from which springs every complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its viscious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain, exhaustion or bodily strength, and without the fear of catching cold or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken in excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as the body; first calming, then curing all mental derangements, eccentricities, nervous affections, irritabilities and restlessness, from whatever source,—complaints, which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind discovered a cheap and universal mode of purifying, curing and preventing

The being cured of any disease, infirmity, orsore, is now no more a dubious or uncertain proceedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1, and No. 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No. 2 Pills carry off those and the serious acid and putrid humors, incidental to the body: and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimonious phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The powder in boxes 37 1-2 cents.

CAUTION.—Medicines of such great virtue as these, have been, and will be most certainly counterfeited. To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures of the agent for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morisoniana 2 vols. 8vo—price $2,75 per vol

The Family Adviser, 3 vols. 8vo—$1 per vol

Practical Proof, containing many attested cures, price 37 1-2 cents. And just published.

☞Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No. 8 1-2 SOUTH SEVENTH STREET, three doors below Market Street, Philadelphia—and at No. 10 North street, Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.
