sowed abundantly, and have been most abundantly rewarded."

From the Baltimore Republican.

☞ As the federal hocus-pocus still insist on ranking *Mr. Boon* among their number in the Senate, we select the annexed extract from his address to the citizens of Caroline previous to the election. Mr. Boon was supported in opposition to the regular whig candidate and elected by the Democratic party. The subjoined will speak for itself in regard to a very important part of the course he will be found to pursue. As to the rest, we do not now entertain any fears. He says;

"My becoming a candidate, is, as before stated, at the request of a number of Freemen, which I do as a freeman; and if elected in that body, as now organized, I shall *feel myself bound to go for nominations coming from the constitutional head*; be he whom he may, if the nominee's character is fair for honesty, integrity and capability. I cannot believe there can be danger from the success of either of the gentlemen now before the people of Maryland, for I have known them many years, and have been associated with the nominee on the whig ticket, in the House of Delegates."

*No Party Men.*—The celebrated Dean Swift, in a passage in one of his essays, thus felicitously hints off the true character of a "no party man,"

"A MAN OF NO PARTY.—Whoever gives himself this character, you may depend upon it, *is of no party*; but it is such a party as he is ashamed to own.—For, even while he says he is of *no party*, you may observe from the whole drift of his discourse that he is plainly prejudiced in favour of one party, and that, too always the worst. And the true reason of his not declaring is, that he thinks the party not yet strong enough to protect him. The justice of the cause or the goodness of the intention seems to be wholly out of this gentleman's scheme. The only distinction he goes by is to be politically of no party, that he may be occasionally of either. Others there are, who are really a party, and don't know it, they carry on designs, which are kept secret from them; and these indeed are such insignificant tools of a party that they many properly enough be said to be of no party, thep are machines purely passive, and, without any will of their own obey the impulse of the wheel that moves them. But you shall never hear a man of true principles say he is a man of no party; he declares he is of a party, if resolutely to stand by and defend the Constitution must be called being of a party. But the other party, it seems, must be divided into two sorts. those who are of a party, and those who are of no partp at all. With the gentlemen who apply this latter expression to themselves, I would beg leave to reason thus: either they are of a party, or they are not; if they are, they prevaricate grossly (not a more unmannerly expression) while they give out the contrary; if they are not, they ought to be ashamed of such an infamous neutrality, and deserting that cause which they are bound in honor and conscience to defend.

FOR SALT RIVER.

THE JUSTLY CELEBRATED LONG BLACK

SCHOONER HOCO POCO.

Being part of the squadron bound for SALT RIVER, will sail some time during the next month. Persons who intend to take passage on board of her, and wish to obtain a comfortable berth, would do well to apply immediately, as the applicants are numerous, and the CRAFT, it is expected, will be very much crowded.

☞ Some idea of the sumptuousness of the fare may be formed from the fact, that the Passengers will be regaled during the voyage, entirely upon FEDERAL VICTORIES!

INTEMPERANCE AND ITS FRUITS.—We learn from the Tuscaloosa Intelligencer, that Governor BAGBY, the present chief magistrate of Alabama, delivered and address to the Temperance Society of that city, on the 30th ult., in which he furnished a striking illusion of the connection between intemperance and crime. That paper remarks, "His excellency, (who we all know is a distinguished criminal lawyer) stated that in course of his life, he had been employed in some 50 or 60 capital cases; *every one of which*, as well as he then recollected, was connected, with intemperance!

LATEST FROM FLORIDA.

TERRIBLE SHIPWRECKS AND INDIAN MASSACRES.

By the U. S. Revenue Cutter Madison, Captain Howard, which arrived just as the impression of this day's paper was completed, we hear of a more extensive loss of life and property, than was ever before effected in a single hurricane upon the Southern coast. Between thirty and forty vessels are said to have been lost upon the Bahama Banks on the 7th of September, and the hurricane is represented to have been more terrific than was ever before known in these latitudes. No parcel of canvass could withstand the force of the gale and the survivors represent that the bare masts and spars were blown out of staunch and new vessels. And beside the extraordinary horrors of shipwreck upon a desert shores, many of the numerous survivors of the wreck upon the Florida coast, after their escape from the horrible battle of the elements, reached the land to meet a more frightful death in massacre by the Indans of Cape Florida.

We give the following, which are all the few particulars of the wrecks that we have as yet ascertained.

The ship Kentucky, N. York and N. Orleans packet, was lost on Gum Key, Bahamas—a total wreck—but passengers and crew all saved.

The herm brig Victory, Dunham, master, was also lost on Gum Key—a total loss of vessel and cargo.—Crew and passengers saved.

We have the following from the South Floridian of the 15th ult:

The French brig Courier de Tampico Jules Julian, from Havana bound to Bordeaux, was driven ashore on the night of the 7th, about twelve miles north of Cape Florida light—only seven out of sixteen souls saved: brig and cargo totally lost—the survivors rescued from the devouring ocean were soon visited by a large party of armed Indians, who spared their lives because they were Frenchmen, saying, that they only killed Americans. The Captain and the six other survivors were taken from the beach after the gale was over, by a smack from the North, bound to this place.

The names of the persons saved from the brig are, Capt, Jules Julian; 2d Capt, Charles Huppie, Toulon, apprentice; Zenou, Boatswain; Deput, apprentice.

Passengers—Monsieurs Legran, Arrambia.

Names of the persons lost—Cussinier, Carpenter; Gaudin, Cook; Ballex, Allani, Gauya, sailors: Raymond, boy.

Passengers—Monsieurs Durenal, A Lacavre, Samatan,

The brig Alna, Thomas, of Portland, Me. from St Jago, went ashore about the same time and near the same place. Every man on board, except one, a Dutchman, was massacred by the Indians. He was spared at the time of the general slaughter and subsequently hid himself in the hold of the brig. During all one day and night the Indians kept up a horriable pow wow aboard the brig; they were about 50 in number. The next day the Indians left the brig for a short time, when the poor man crept out from his hiding place, discovered and sailed the wrecking sloops America and Mount Vernon, and by them was taken off, the Indians again appearing in sight after he had left the brig. The Indians will wreck the brig.

[We are happy to be able to state there are two more survivors of the wreck of the Alna who are now on board the Madison at this port, viz: Eleazer Wyer and Samuel Cammett, both of Portland. Wyer was shot through the thigh and, hand, but has nearly recovered.

ENCHANTED MOUNTAIN.

The following account of a natural curiosity is from the Texas Telegraph:

This singular mountain or hill is situated on the head waters of Salley—a small tributary of the Colorado, about eighty miles from Bastrop, in a north-westerly direction. It is about three hundred feet high, and appears to be an enormous oval rock partly imbeded the earth. When the sun shines, the light is reflected from its polished surface as from an immense mirror, and the whole mountain glows with such a dazzling radiance, that the beholder who views it even from the distance of four or five miles is unable to gaze upon it without experiencing a painful sensation, similar to that which is felt when looking upon the rising sun. The ascent of this hill is so very gradual, that persons can easily walk up to the top; but the rock is so smooth and slippery that those who make the attempt are compelled to wear mocasins or stockings instead of shoes. This fact, together with the name of the place, Holy Mountain, remind the visitant very forcibly of the command marie to Moses at Mount Horeb, "Put off thy shoes from off thy feet." The Cumanches regard this hill with religious veneration, and Indian pilgrims frequently assemble from the remotest borders of this tribe, to perform their Paynim rites upon its summit.

*Curious compliment.*—At the 4th July celebration in Boston the following toast was drank with great applause.

"The Ladies. The only *anti* republicans whose notions we like, none of them believe that '*all* men are equal'—few of them are willing that any man should be *free*."

PRICE CURRENT

GRAIN.—

Wheat.—We left the market on Tuesday in rather an unsettled state, with little disposition on the part of millers to buy. Since then, anu up to 3 P. M. yesterday, (when the English advices were received) sales of prime reds were generally made at $1,65. Within the last two or three days various parcels of reds have been taken by millers, at a price to be determinsd hereafter. The first parcel of red wheat which was offered this morning, after the publication of the English accounts, was taken at $1,73 Prime reds, we have reason to believe, have since been sold at $1 75. The wheat market, at the time of making up this report, partakes somewhat of the unsettled character of that of Flour, and like the latter appears to be awaiting the further developement of the effect of the news on the market of New York.

A parcel of family flour white wheat was sold to day at $1.85 per bushel.

Corn.—Sales of wheat early in the week at 93 a 94 cents—to day we quote white at 92 a 93 cents Sales of yellow to day at 97 cts.

Rye.—Sales as in quality at 90 a 95 cents.

Oats.—Sales early in the week at 40 cents. They are now scarce, and are worth 41 a 43 cents.

MARL FOR SALE.

THE subscriber having made arrangements for disposing of the valuable shell marl, which exists on his estate in Talbot County, informs the Agricultural community, that he is now ready to deliver, of the above article, any quantity that may be required, by giving him timely notice.

The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertalizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposite it may be stated that it consists of Sea shells, with very little admixture of earth and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl—Those wishing to purchase will please address William B. Smyth, Easton, Md. Vessels going for it will pass up the Great Choptank until the Dover Bridge appears in sight—they will then come to Barker's landing-where they will find the lands of the undersigned on the west bank of the river.

WILLIAM B. SMYTH.

April 10, 1838

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

'But perhaps the most valuable beds of shell marl in this part of Talbot county, in as much as they may be made extensively available to the public demands for the article, are those which were fully described in the preceeding report, They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr. Atkison. These beds are in contiguous strata, apparently successive and cosist of vast accumulations principally, in the ascending order, of oysters succeeded by clam shells intermixed with other marine shells, scallop, clam and scallop and uppermost principally of scallop. Endeavour was made to bring these beds into notice, with a view of enlisting them into public service, by giving to their proprietors what was deemed proper directions for extracting the materials and salutary advice as to a just estimate of its vaue in order to secure a constant and permanent disposal of it. The subject is now in progress of experiment. South of these banks on the Choptank, no other deposite of marl is known to occur.

To Rent

THE subscriber has two farms which he will rent to good Tenants. A lease will be given for three years.

$100 REWARD.

RANAWAY from the subscriber, on Saturday night the 5th inst., a negro man named JOHN SHADDEN, very black, about 27 years of age, 5 feet 4 or 5 inches high, stout and well made; has rather a down look when spoken to, but very humble and submissive; has a scar on his face near the temple, but not recollected on which side; also a scar on the chin, occasioned by the cut of a knife. The said negro is a good labouring hand on a farm, and is partially acquainted with the shoemaking business. The clothing taken off by him were two pair new low-linen trowsers, with cotton warp, and two shirts of the same kind; a pair of cross-barred cassimet pantaloons, a blue cloth round jacket, a pair of white janes panteloons, a round jacket of red and white twilled cotton, two muslin shirts, and two pair old kersey trowsers, dyed purple, a fur hat not much worn, with some other clothing not recollected. It is supposed a small black woman, his wife and the property of Mrs. Sarah Lee, has gone off in company with him, and it is believed they have made their way to Pennsylvania or Jersey.

The above reward will be given if said negro be apprehended out of the State, and lodged in some Jail so that I get him, or fifty dollars, if taken in the State and brought home.
