The Military Encampment.—The encampment of the Maryland National Guard, August 2nd to 8th, at Hagerstown, promises to be an event in the history of the Guard, and elaborate preparations are being made to render the first encampment a great success. Fully 2,000 men are expected to be in camp from all portions of the State. Regimental and brigade drills and inspection, guard mount, dress parade, and other beautiful and impressive military ceremonies and scenes of camp life will be portrayed each day, and during the evening a grand outdoor concert will be given by the military band. The Baltimore and Ohio R. R., in pursuance of its usual liberal custom, will sell excursion tickets to Hagerstown from all points in Maryland, from Washington City and from Harper's Ferry, Winchester and intermediate stations, at single fare for the round trip. These tickets will be sold from August 2d to 8th, good to return until 9th, inclusive.

Publications.—*Babyhood* aims to be a help to parents by giving the best information concerning the health, comfort and well-being of the youngest children. That it is well living up to this aim is amply attested by the August issue, just at hand, which is of even more than ordinary value. Its editorial remarks include novel suggestions concerning the eating of candy, and a reply to the question, When should young children begin to eat meat? Dr. Jerome Walker writes of "Dysentery and Kindred Diseases" giving common-sense directions for home treatment. Dr. Floyd M. Crandall writes of "Heat-Rash," its symptoms, treatment, etc. Clara W. Robinson advocates sensibly a special "Training for Maternity." The most varied topics, such as "Shall the Baby Go to Church," "An Embryo Artist," "Prominent Ears," "The Refusal to Nurse and its Consequences," are discussed in the department of "Nursery Observations," "Nursery Problems," and "Mothers' Parliament." Young parents who are not familiar with this magazine should at least send for a sample. 15 cents a copy. $1.50 year. *Babyhood* Publishing Co., 5 Beekman St., N. Y.

Our Little Ones for August is one of the most interesting numbers of this charming little magazine. Several articles describing the life and habits of strange animals and insects are given, which, together with numerous stories, poems and pretty illustrations, make up a number bound to please all. Russell Publishing Co., 36 Bromfield St., Boston Mass.

Eastern Views of the Coal Trade.

New York.—There are no changes to note in the bituminous coal trade.—Mining *Record*.

There is a full movement of soft coal, and the trade report business as very fair in all the centres; we hear that the local market is in good shape, there is a steadiness to the demand that takes care of the receipts, and prices are on the basis—$2.60 f. o. b. at the lower points.—Coal Trade *Journal*.

There is nothing new in this market. Prices remain unchanged, and trade continues dull, with plenty of coal offering; nevertheless prices are well maintained for all the standard coals.

Boston.—Soft coal men have indeed wrought a great change in their market. In place of the unsettled, bottomless market which they are usually experiencing at this time, affairs move along very smoothly on the pool basis of $2.60 f. o. b. There is not enough coal being sold below this price to make a ripple, although a few parties do still take orders at from $3.85 to $4 delivered. The demand is small just now, as may be seen by the fact that there were no customers for one or two lots afloat here lately. There has been enough growling for several year past, and when things do run smoothly with the soft coal people, it is well to make a note of it.—Engineering and Mining *Journal*.

The trade outlook in coal is said to be excellent. The supplies in manufacturers' hands are light and as soon as factories will be run full time through the year, it is no prophecy to say that both anthracite and bituminous coal will be in steady demand after this month. It has been the aim of the coal producers to make the most possible out of their coal and they are in a fair way to do so through the manner in which they have maintained their organization, despite all efforts to overthrow the same, exerted both by the power of the Pattison administration in this state and the pool of the dealers in the cities.—Shenandoah (Pa.) Mining *Herald*.

New Business Locals.

Miraculous Escape.—W. W. Reed, druggist, of Winchester, Ind., writes: "One of my customers, Mrs. Louisa Pike, Bartonia, Randolph Co., Ind., was a long sufferer with Consumption, and was given up to die by her physicians. She heard of Dr. King's New Discovery for Consumption, and began buying it of me. In six months' time she walked to this city, a distance of six miles, and is now so much improved she has quit using it. She feels she owes her life to it." Free trial bottles at G. A. Wingert's drug store.

Saved His Life.—Mr. D. I. Wilcoxson, of Horse Cave, Ky., says he was for many years badly afflicted with Phthisic and Diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters, and got relief from first bottle and after taking six bottles, was entirely cured and had gained in flesh eighteen pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at fifty cents a bottle by G. A. Wingert.
