said the Company would pay the money on your return. My present object is to inquire whether the company have assumed or will assume the debt? and if so when it will be paid? An early answer is requested for on your reply will depend the question whether it will be necessary to resort to legal process to make the money. If the Company is bound we will wait a time for its convenience for payment; if it is not I shall commence a legal proceeding at once.

I am my dear Sir yours &c

Gen Thomas Emory

J. W. Wisfield
