Auburn Sept 18th

Dear Sir

I have sent to Mr Burns a couple of Blocks of Rock Salt marked to your address which I hope will reach you in safety. My supply of the article is small at present. or I should have sent more. there will be enough however for you to make a trial of it with your stock

I regret exceedingly that you could not have remained some days at Auburn There are a number of subjects connected with Agriculture that I wish to converse with you about. I have still this pleasure in anticipation and hope that you will not disappoint us.

I wished also to have spoken to you respecting those Blooded Colts of my Bro, which you saw, and to ask you if there is any demand for such stock at present on the Eastern Shore. The Pedigree of the Colts on both sides is the best in the country and my Broth is disposed to take a low price for them as I have no range for them and he does not wish to keep them
