Ches & Del. Canal Office
Philad.a Dec. 31 1841

Dear Sir

Understanding that you are at the head of a Company to form a Steam Boat Connection with Baltimore I am induced to call your attention to a Steam Boat belonging to the Philad.a & Havre De Grace Tow Boat Co. I allude to the Lincoln now lying at Ches. City where she can be examined at any time. She is in sound order, her Engine good. Her boiler has been in use but one season. She can run at a very small cost, is a most excellent sea Boat having been used to carry Passengers from this City to Cape May. She can run between Ches. City & Havre De Grace in an average of 2½ hours distance fully 26 miles. Price $5.000 - She is rather too small for a Tow Boat in the season of her being offered for sale

Very Truly Your Obt. Sr.
C. Newbold Jr.

Genl. Thos. Emory -
