somely received and escorted by the accomplished officers in examining the various objects of interest.

It has been determined to have a grand union celebration by all the Catholic schools of Washington during the month of May. That is also the period for the ceremonies of the union of the Protestant schools.

The overland mail between St. Louis, Mo., and San Francisco, which has since 1858 been conveyed with great regularity twice a week each way, in four-horse coaches, through in twenty-five days, is, by a recent act of Congress, to be soon transferred to a more northern and much shorter route, say from St. Joseph's Mission, or some other point on the Missouri river, to Placerville, California.

This new service is to convey the letter mails six times a week in twenty days each way during eight months of the year, and in twenty-three days the other four months. It provides also for a supply of Denver city and Salt Lake city—one of which will receive a six times a week and the other a three times a week supply. The printed matter is to be carried through in a period not exceeding 35 days, with a privilege on the part of the Postmaster General and contractor of sending it by steamship route, via Panama, twice a month. The contractors will be required until the completion of the overland telegraph to run a pony express semi-weekly, through in ten days, eight months of the year, and in twelve days the residue, carrying for the government free of charge, five pounds of mail matter, with the liberty of charging the full rate for the transportation of letters not exceeding one dollar per half ounce. For this entire service the contractors are to receive one million dollars per annum, instead of the $600,000 paid them on the lower route.

The fact that Texas has formally seceded from the Union, and that the U. S. troops are fast being withdrawn from her western border, leaving the route exposed to Indian depredations, thereby making it unsafe for both mails and passengers, doubtless had large influence in the way of inducing Congress to direct the important changes.

It is understood that St. Patrick's day (Sunday next) will not be celebrated by any formal demonstration, but that impressive services will take place at the venerable church named in honor of the patron saint. Rev. Mr. Maguire will deliver a discourse in aid of the St. Vincent of Paul Association and the Catholic Soup Societies.

The third anniversary of the union prayer meetings has been held nearly this whole day at the First Presbyterian church. M.

CONTRACT SYSTEM IN THE EXTINGUISHMENT OF FIRES.—The special committee of the councils of Philadelphia appointed to consider what advancement can be made in regard to a contract for the extinguishment of fires, held a meeting on Monday, when a formal proposition was received from a committee claiming, *sotto voce*, "Before another winter I'll have a man to hang to; see if I don't!"

FIRE IN NEW YORK.—On Monday night, a fire occurred on Broadway, by which Masterson & Reamer, wholesale grocers, sustained a damage of $20,000 to their stock; and H E. Hart, cap manufacturer, $10,000. The building, owned by John Fitch, was damaged to the amount of $20,000. Several other parties suffered slight losses, but all were insured.

SUDDEN DEATHS.—Thomas Burns, of Alexandria, Va., who attended church on Sunday night, was subsequently seized with apoplexy, and died about midnight. Mr. John Colder, of Huntingdon, Pa., who attended his father's funeral in Harrisburg, last week, was seized with inflammation of the lungs, and died on Saturday.

THE WAY TO SAVE THE UNION.—Millions, North, as well as South, don't think a Union is worth saving, that can only be saved by mortars, columbiads, flying artillery, shells, etc. The only way to save the Union, is to obey the laws and constitution—not *as you and I expound it*—but as the courts expound it.—*N. Y. Express.*

THE NEW YORK POLICE.—Mr. Kennedy, superintendent of the New York police, denies the sworn statement of officer Williamson that he had told him that he was a candidate for a federal office. He says he is not a candidate for any office under government, but admits he has sent policemen to different cities on "duty."

MISSIONARIES SAILED.—The ship National Eagle sailed from Boston on Saturday for Madras and Calcutta. The following were passengers:—Rev. Edward Webb, wife and two children; Rev. John Scudder, M.D., and wife; Rev. D. C. Scudder and wife; Edward Gould, Jr., of Boston; Mrs. Matthews (captain's wife) and child.

ROBBERY IN ALEXANDRIA.—On Sunday evening, while Mr. B. Delphey and his wife, of Alexandria, Va., were at church, their dwelling was entered and robbed of between $300 and $400 in gold, a large cameo breastpin, a gold chain and several finger rings. Their married daughter, Mrs. Fields, was in a back room, but did not see or hear the robber.

SHOCKING DEATH.—Dr. Vermeule, of New-Market, New Jersey, committed suicide on Saturday, at that place, by throwing himself upon the track of the Central railroad just as the express train dashed by at a high rate of speed. He was horribly mutilated, and killed instantly. He had been in a state of partial insanity much of the time during the past year.

SECESSION AMONG THE TYPOS.—At a late meeting of the Typographical Union, of Jackson, Mississippi, a committee was appointed to draft an ordinance of secession from the "National Typographical Union," with a view to the formation of another grand body in the Confederate States.

HANCE'S SARSAPARILLA, VEGETABLE BLOOD PILLS, FOR PURIFYING THE BLOOD.

Baltimore, July 29, 1858.

This is to certify that I was afflicted with a violent pain in the breast and right arm, which, I supposed proceeded from the impure state of my blood. I was recommended to take *Hance's Sarsaparilla or Blood Pills*, and after taking one box the pain was entirely removed from my breast and arm. I found them

40 DR. A. HUET HAS BY FORTY YEARS' PRACTICE discovered the most certain, safe, speedy and only reliable remedies in the world for the cure of all disease arising from improper habits, so fearfully fatal to body and mind, as the records of insane asylums and the melancholy deaths from disease of the heart, &c., bear witness. 99 cases in 100 are produced by the pernicious practice of solitary habits, excess or imprudence in youth or adult, which ruins the most vigorous constitution and brings on premature decline, with loss of memory, organic debility, diseases of the heart, dyspepsy, liver complaint, lassitude, distaste for society, fear of solitude, dimness of sight, paleness and emaciation, pains in the back and loins, affections of the bladder and kidneys; consciousness of their incapacity to perform the requirement of nature precludes the prospect of marriage, and constantly harasses their mind; their vital power becomes enfeebled, and if these symptoms are allowed to go on a horrid fear of death, madness, and often terminates in insanity and suicide. These are some of the *distressing effects* of early imprudence. Thousands can judge why they are declining in health, with great nervousness and nightly derangements, with many other symptoms of the most fearful kind.

THE EFFECTS OF DR. HUET'S CHEMICAL EXTRACT OF FLOWERS is almost incredible. The public, so often deceived, can hardly believe that there existed remedies capable of performing such wonderful cures, but undeniable facts, attested by the most reliable witnesses, are triumphant over all doubts. Incredibility is overthrown by a mass of testimony which is indisputable. These unfailing remedies are prepared from the best ingredients in nature, and are perfectly adapted to persons of either sex and of any age. Patients at a distance can have them sent free from curiosity or exposure. Charges moderate and always in proportion to the nature and severity of the case.

CHRISTOPHER'S STABLES, 56 German street.

Dear Sir: I received, a few days since, a bottle of your "JOHNSON'S ARABIAN LINIMENT," and have given it a trial on one of my horses who had his legs very much swollen from some means to the unaccustomed. I used one bottle and it entirely removed all inflammation from the parts affected. I so far am very well satisfied with it, and believe it is the best Liniment for Horses now in the market.

I would advise parties to call at the Dairy, and they will soon be satisfied with its result.

Yours, truly. WM. C. MILLER, Proprietor.

DISEASES OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of any painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, fleck his pecuniary substance, keep him trifling, month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment; or by the use of that deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as Affections of the Head, Throat, Nose, Skin, &c., progressing with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whose bourne no traveler returns.

OFFICE No. 7 SOUTH FREDERICK ST.,

Left hand side going from Baltimore street, a few doors from the corner. Fail not to observe Name and Number. Letters must contain a stamp.

Dr. Johnston is called upon every day, particularly by strangers who have been enticed from this institution and irretrievably ruined in the infamous abodes of Quackery.

Strangers, trust not your lives or health to ignorant, trifling imposters, with copied advertisements and a thousand other artifices to mislead you.

Be not duped by unlearned and wortless pretenders, with humbug testimonials, forged certificates, bogus diplomas, &c. Be not deceived by the base, lying and ridiculous assertions of a vain and contemptible trickster, or ensnared by specious shall charges for large bottles of liquor or Waters or vials and packages of filthy and poisonous compounds, which cannot fail to ruin you.

Dr. Johnston is the only physician advertising. His Diplomas always hang in his office.

His remedies are unknown to all others, prepared from a life spent in the first Hospitals of Europe and this country, viz: England, France, the Blockley, of Philadelphia, &c., and a more extensive practice than any other physician in the world.

DR. A. HUET OF PARIS.

GRADUATE OF THE ECOLE DE MEDICINE DE PARIS, MEMBER OF THE MEDICAL FACULTY OF MARYLAND, where he received his diplomas in 1839, continues to guarantee his cures in all those chronic, abandoned and constitutional maladies, in which he has been so eminently successful, as thousands and thousands can testify throughout all parts of the country. An extensive practice of forty years enables him to guarantee a thorough, sound, constitutional cure, for a certain amount—no second fee demanded; recent cases positively cured in one day. Old, inveterate, and maltreated cases eradicated in a proportionate short time.
