Dear Sir

Wye Mill Decr. 14. 1819

I received your two letters since my arrival at the Mill, and in answer to the first have to inform you that Capt. Cooper is taking your corn on board, from a note I rec'd from Brother Tom this morning he informed me that he could not deliver more than 30 Bbls. at that time, and I do not know exactly how much the Sloop will carry in the corn, but if the Capt will permit she can take the balance down when she returns from Baltimore, as I am obliged to send my wheat from the Island this trip notwithstanding the reduced price, if you should determine to send your son, you can let me know tomorrow, respecting your letter of today. Tench promised me to take up his Mothers bond this fall, the exact balance I do not exactly recollect, but think it must be between 800 or 1000 $, and I sincerely wish it was in my power to advance the money you require

John Tilghman Esquire

Mulline

Wye Mill
