Sir,

I am extremely sorry that it was not in my power to reply to your letter of the 24 ult. sooner — Previous to the arrival of which the Gentleman who published for a situation had left the City & returned only a few days ago, & then I could not get a definite answer as he contemplated engaging with Mr. Wirt the Attorney General — they have now agreed and he remains in the City — If you be not yet supplied there is a young Gentleman who has applied to me for a situation; he is a very moral young man & a good Greek & Latin scholar, he has taught in the family of the late Chief Judge Livingston of N. York; I would be glad to know as soon as you may
