and as you have an Interest in this Portion of
Country it behoved you to attend to it.

I find a Law passed last Session
relative to Forests — and a most valuable
one it is, — but is confined to Charles &
Allegany Counties, — I have conversed
with many persons on the Subject, and
not one but highly approved it, and
would be glad to have such a Law for
this County. — it was passed Feby 1827. —
and I wish you to examine its provisi
=ons and see if it would not suit us &
have conversation with your Colleagues
on the passage of a similar one. — for
really, as Matters now stand, we do
not know what the Law is on that Subject.

Messrs Carmichael & Grayson, I learn,
set off for Annapolis last Monday
and perhaps are yet in Town.

I remain
Respectfully
Your most obedt
E Stavers
