of Francis Tucker nor for none of that part of the land which is supposed to be in dispute ~~to Mr Harrison~~ - The ballance of the money due on the judgment is my commission and costs of suit - Should Nicholas Brewer for receipts as agents of his father in full for the judgments, but must have from under his hand that the chancellor has not ~~allowed~~ admitted any of the allowances which Mr John W Bradley as the agents of Mrs Price claimed - know of him whether he wants Robert Wrights real estate advertised for sale under the executions of Barney Cunnars Exors - It will not sell subject to prior liens without he attends and bids for it - I have summoned resolution to write you, but my afflicting situation from the late dispensation of divine providence can be better imagined than described - I can scarcely believe at times that the late melancholy occurrence has taken place and nothing but the grace of a merciful God can reconcile me to it - My house is the seat of misery and torment to me at this time - I trust to kind heaven to enable me to be resigned to my unhappy fate - Your kind and good wife left me this morning in health but no doubt fatigued from her unwearied exertions to my dear little infants -

God bless you I believe me

Affectionately

Yrs

R Harrison
