

collected from the rear of the residences of your petitioners, but owing to the Garbage Collector's stating that owing to notification by the Police of the N. W. District, that he can not go over the kerb with his cart: he can no longer come up the alley, as one has raised objection and he would be arrested, and that hereafter, all garbage and ashes must be brought down to Calhoun Street, which is very inconvenient from a physical standpoint, and a nuisance considering that a 10 foot alley has been provided for just such a purpose.

The District Superintendent of the garbage or street collection called at our request, and he stated that if the Police Department would remove their objection, that the Street Cleaning Department would lay what he termed a "Run" over the kerb; and would continue the collections as heretofore.

We therefore request that your body take such action looking to the relief of the residents, as prayed for.
