6 Ville 2 August 1828

Sir

upon the receipt of your Note of the 5th of July last I deemed it proper to Call a meeting of the Commissioners of the school Funds of this County

The Commissioners of the school Funds have in hand 70 Shares of stock of the Farmers Bank of Maryland and the sum of about $400:00 in Cash the Commissioners of the school Funds made their arrangements on the first monday of march last for the present year, and they deem it proper to apply so much of the Funds as is necessary to discharge the engagements; The Commissioners of the school Funds regret that they had no Knowledge of the intention to pass this Law. they are not satisfied that the money in their hands has not been as beneficially applied for the education of the poor Children of Queen Anns County as it would be in the hands of the Commissioners of the Primary Schools of the County and they purpose at the next sessions of the General assembly to submit their proceedings from the first organization of the system to the General assembly and if upon full advisement the Legislature shall think that the Funds will be more beneficially applied by the Commissioners of the Primary schools they will Readily surrender their Funds and dissolve their Board
