Oswell Sept. 26th 1829.

My dear Sir

The first time I opened my drawer after your departure I laid my hand on the Bill of Sale filed away with other papers connected with that estate — I give you an exact abstract of all the articles contained in the Bill of S. altho' you will perceive some of them have been taken heretofore — "Six milch cows, four heifers, 2 young steers, 2 young bulls — Three calves of last year, all the hogs now at Sherwood not included in a former bill of Sale, the three mares left of last spring, (one Lot of carpenters tools and the canoe & two Battoeaux, also the double barrelled fowling gun, the single barrelled Bird gun, one duck gun — one half of a fowling piece)" All the articles included in the paraphrasing — remain at Sherwood — It was my intention, further to have given you a list of the articles refused by Mr Lovat because they were not minutely described in the original Bill of Sale — I think they amounted to about $130.00 — It was this paper which I now think, I gave to Wm H.F. to see what he could do in the business — they were articles actually within the house — the greater part of which must be now consumed — and about which Mr Hemsley wrote to me so equivocally — My impression is that I gave Mr Hemsley
