Dear Sir

Philadelphia 9th Augt 1830

As I yesterday gave you reason to expect I came to the City this morning to represent to my Sisters the circumstances which you made known to me yesterday — I am happy to say that Mr Philips being in Town with my Sisters Henrietta Maria and Catherine I have succeeded in obtaining their directions to suspend any present proceedings upon the Fi fa which you informed me was notified to you by the Sheriff of Queen Anne's as in his hands under the Judgements on your Docket ag^st you — They agree upon the suspension of further proceedings for a Time on the Terms you stated should be punctually observed, the immediate and essential condition of which was that the whole of the Interest due upon the respective Judgements should be immediately and within the expiration of a Week from this date remitted to me for their use, of which Judgements you will be good enough to send me a particular Statement or Account with their dates, as I stand at the present moment uninformed of these particulars since my Sisters took upon themselves the direction of this Concern — I trust you will not disappoint them of the expected remittance as I have received their instructions to state that your compliance in this respect is to be considered as the Condition on which the Suspension of the proceedings is to depend — Knowing from yourself your intention on this Point I the more readily assented to my expressing to you what they required — Another requisition however is made by them which is that you should pay to them by the first of July next the Thousand Dollars which you proposed to pay to them in the Autumn of 1831 —

It gives me pleasure that I can so early relieve your Anxiety on this Subject and hope that the small Service I may have rendered, will be

John Tilghman Esq
Melfield
