statement of our joint business in Mississippi, I shall be much obliged by your sending up the Greensons letter or letters on the subject, by the 1st safe conveyance, & I will return them by the same hand. Anna sends much love & thanks to her cousin M E. for her kind solicitude and she will endeavour to avoid taking cold, whenever she may be sufficiently recovered to leave her room. She still suffers greatly from the effects of the calomel but we hope the worst is now over - tho' much debilitated from illness & long confinement to one room, of eight weeks.

With much love to all -

I remain with esteem
very respy yours
H. Tilghman
