My Dear Sir

July 28th 1842

I had no idea of being so soon troublesome to you with another scrawl from my pen, but a letter recently received from the Tenant on the Boal, seems to make it necessary, he urges Tench, to whom he writes, to go up, on account of trespassing that has been done in the woods; Tench having to go shortly again to Frederick, has his time fully employed in making his arrangements for leaving home, therefore declines for the present, complying with Mr T—s request. & this will I hope apologize for the liberty I take of requesting the favor of you, to write to the Tenant on the Subject, & thus him let the trespassers know, that it will not be allowed; a word coming from you my Good Sir, known as you are in the County will be more, than all Tench could say were he to go.—

I hope your Daughter Catherine, & the invalid, both stand this heat, shall be happy to hear that you are all well, as thank God we are in both houses, with my best wishes & offer to remembrance to all, believe me your sincerely attached & grateful Relative.—

Anna Maria Tilghman
