Woodley, Sept. 27th 1842

Dear Uncle -

Your kind letter with its inclosure, I received yesterday, and at these hard times, when Wheat is as low as 75 cts pr Bu and all other produce in proportion, it is very acceptable indeed - I am again indebted to you for the arrangement you have made in the sale of the Island, and hope we shall have no further trouble about it - I think we have been indeed fortunate, for no better plan could have been adopted - We are truly sorry to hear of the deaths you mention, and since the receipt of yours - we see by the Baltimore Patriot, the death of Dr Boardleys little boy, his poor parents, I sincerely condole with, - Our county is healthy - and our friends generally well - I am indeed sorry that you will not be able to come up this fall for I know it would afford Father in law = tha an, and all of us, so much pleasure to see you & Kate - My practice is on the increase, I have added three very good families to my Book, within the last two weeks -

Our best love to all friends -

Yr Aff Stephen H. Gilpin
