Talbot County Sept 21st 1832 —

Mly D. Sir,

I rec. yours of the 28th ult. soon after its date and have been so constantly engaged that I have omitted to reply to it and thank you for your offer of Wheat. —

Last week I was at Sherwood & finding Mr. Hensley had a parcel of the same Wheat returned from Baltimore in consequence of the state of things there produced by the Cholera I thought it a good opportunity to secure it & got Captain Smith to deliver it to me at Hope what he had on board which was an accommodation to us all round. —

Should I want more & can get a boat to bring it over I shall apply to you again, though I think your price a high one in proportion to the general sales — Should you have a further demand for what you have do not keep it on my account. — You will please forward me the check rec. from Mr. Bond on Tuck's account
