Clairmt Nursery April 15/36

Friend John Dilghman I have this day sent in a Box cntaing 112 New Chines mulberry trees, which I have well arive in good time they have had along voige but have arived in fine order. those trees have much finer and stranger roots than I expected but are not quite so has many of them have spurs or eyes rather above the roots which will produce shoots that may be laiered in June — In consequence of those trees being shorter & the packing &c expensive than I aged for with thee, as also with the person from whom I purchased. I will give next trip five dollers worth of trees shrubs or vines, the pear trees in an order from R Sinclair Jr. ~~well~~ I thought was too small and therefore did not send them I have ordered ~~ordered~~ 120 which may be expected by the time Capt. Storie makes another trip — when I can send better I expect —

I thing I sent a receipt for cent paid for Mulberry trees if so a bill now is unecessary Pleas excuse hast as I hardly get time to sleep or eate so numerous and pressing are the orders from all parts of the Country

Thy friend

Robt. Sinclair
