

house. This was a nice piece of police work. The Board has inquired into the circumstances of this arrest and upon the recommendation of your commanding officer, concurred in by the Marshal of Police, we have summonsed you to come before the Board. We commend you for your alertness and your intelligent work in apprehending from a casual conversation these young men. That is a characteristic we desire to see cultivated by members of the force; the officer's ears should be ever open to hear and understand conversations in his hearing which might lead to the apprehension of offenders against the law. You have shown that you were alert and attentive to duty and used intelligence in carrying it out. The Board therefore specially commends you."

Repair Shop, - Motor Vehicles.
Machinery, etc., - Purchase.

In the matter of the establishment of repair shop for motor vehicles of the Department, as referred to in the proceedings of November 23, 1911, bids were submitted from:-

The Fairbanks Company,

Carey Machinery & Supply Company,

Aumen Machinery & Supply Company.

to furnish various tools required for the said shop, the erection of the same, as well as the necessary motor etc.

After inquiring into the matter carefully, going over the bids and hearing through the Secretary of the Board, the report of Patrolman Edward Ulrich, machinist and in charge of the mechanical branch of the motor vehicle service, (who will have charge of the proposed repair shop), as to the makes and suitability of the different kinds of tools offered, and following recommendations of Patrolman Ulrich, the Board decided in the exercise of its best judgment:

First:- To purchase the following named tools at the prices quoted from the Fairbanks Company:

1 - 15" (swinging 16-3/8") x 10' bed (taking 6' between centers)

Greaves-Klusman Heavy Quick Change Engine Lathe, complete with compound rest, large and small face plates, steady and follow rest, countershaft and all necessary wrenches.
