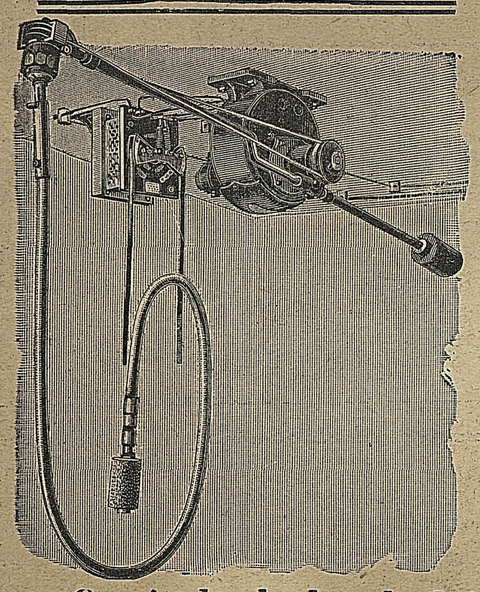
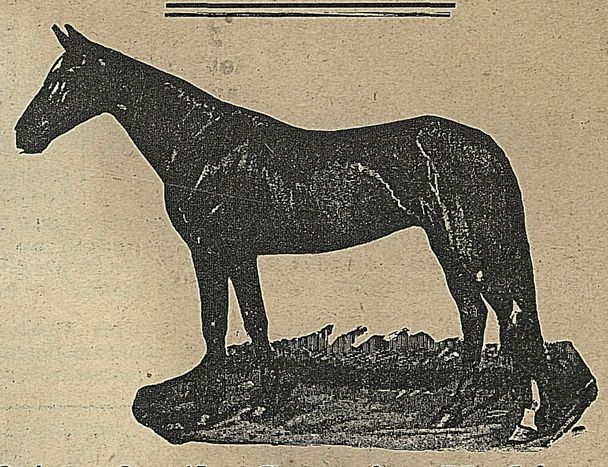
33 Years Experience.

Priest's No. 9 Electric Power GROOMING MACHINE

Quality Wins.





Is complete, ready to attach to the ceiling and connect with wire of power circuit by the local electric power people without charge.

PRIEST'S GROOMING MACHINES ARE A SUCCESS.

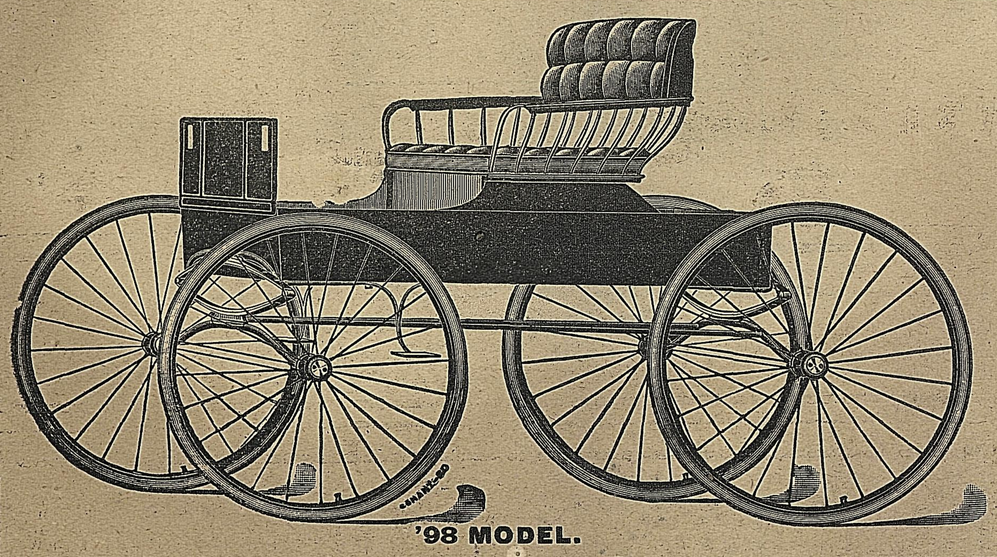
If the dirt is there, and it generally is, it will remove it. A few years ahead of the times was prophetic in 1865 when we brought out the practical method of clipping horses. We believe there is even a greater future for the Grooming Machine.

12 TO 15 HORSES PER HOUR PERFECTLY GROOMED.

Can be backed up by letters from responsible parties from all parts of the country. A clipping attachment can be furnished at small extra cost.

Send for circular . . . **AMERICAN SHEARER MANUFACTURING CO., NASHUA, N. H., U. S. A.**

PNEUMATIC WAGONS



May be a luxury now, but they will soon become a necessity to every road driver who wishes to ride EASILY, SWIFTLY and with SAFETY. Our Pneumatic Whalebone Wagon combines these desirable qualities and has all our latest patented improvements.
