THE VULCAN NAIL

IS THE BEST HORSE SHOE NAIL IN THE WORLD.

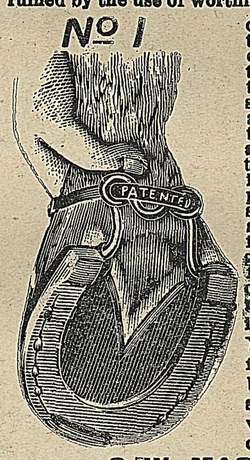
One of its great advantages over all other nails is that it has a beveled shoulder under the head which fills the hole in the shoe, thereby preventing the nail working loose while in the shoe, and it is strongest in that part where a nail should have the most strength. This feature of the nail, perhaps above everything else, is the reason that it has been called the "old reliable" among all practical blacksmiths for over 30 years.

A sample of this nail will be sent to any one on application to the

FOWLER NAIL COMPANY,
SEYMOUR, CONN.

A Liberal Proposition.

How much money have you spent, and how many first-class horses have been permanently ruined by the use of worthless preparations and devices which failed to do what was claimed for them? Nine-tenths of the diseases to which the horse is subject are due to foot ailments, and nine-tenths of foot diseases are traceable to contracted feet, producing sprung knees, supposed chest founder, shoulder lameness, stumbling, interfering, hitching, short gait, pointing, loss of flesh, etc. When the cause—contraction—is removed, the attending ailments disappear. Your money refunded for any curable case that is not satisfactorily dealt with by the proper use of



S. W. MACKEY'S
SPIRAL SPRING HOOF EXPANDER

It cures and prevents all foot troubles, is the only device that will grow a natural frog, and cures when all other remedies fail. Saves time, money and inconvenience, and can be used with or without shoes at any kind of work at any time, and can be removed or applied at will. Price $2 per pair, with straps; tongs, 50 cts.; saw, 50 cts. Made in all sizes. Write for instructive circulars, references and testimonials to the patentee and manufacturer.
