Dear Sir:
We received from your office to day a roll of plans containing
1 B/P 400 ft map Sta 1530 to 2200
" " " " " 2200 " 3226+30
1 tracing profile Sta 1530 " 3226+30
Was this all the roll contained when shipped? The ends of the package were badly damaged when received here.
I now attaching to this letter a list of the Western Division plans and profile books which we sent you today by express.
I wanted you under separate cover the railroad section of Pittsburg Creek. The back ends were reversed owing to our not having the distribution of the quantities. Yours truly Edward T. Bell
