3/4 7

(2)

The 450 are either green rep in
bunch or to handed with brown
to be used, but I do not think
we will have much trouble
in reaching it from the roads
on this side. We only had 4" additional
snow & the snow today settled most
of it. Owing to the storm on Sunday
we were unable to run the line
from the curve at Coburn to the
first turnout, as this is the only
place we are very close to the
P.R.R. I think it advisable to get the
stakes in the ground & I will take
the party up on the train before
leaving here, unless you think it
unnecessary.

I will notify you on receipt of the
W.O. as instructed.

Yours truly
Lloyd J. Emory
ed Payroll under separate cover.
