and running a sufficient number of chords or that with little work topography could be taken to shade the error profile complete. I do not know if this would be sufficient to obviate the legal requirements, but if so it would save considerable time.

Owing to it being necessary for one of us to visit the field office here most of this time I have not been able to get down to working to work for the tent prospect, I am contemplating a trip ahead for the time for Saturday & Sunday next which should land me in Lockport on Saturday in time to see what the tanks should then report as to what we will manage from to send us from here forward.
