35 Nassau St. New York

Dear Sir

Our line reached Sta. 3410 on Saturday night, making 360 stations the week ending Feb 28th until Friday morn the work was along the north side of Lackawanna valley, steep side hill heavy underbrush and some 24 to 30 inches of snow. Sta 10 the second crossing of Penns Creek found the end of our line to the Susquehanna River the country is fairly level with only a few acres of timber. I hope to reach the River by next Saturday night.

We have had a rapid rise in temperature last night it was above freezing. The roads are not as bad as I expected they would
