Geo. F. R. Gordon
35 Ingoldsby St
Lynn Mass

Dear Sir —

I am enclosing a sketch of the Sassafras Hammock crossing, showing our tie-in on the East side. The hut to which we tie is the only one I could find altho I looked carefully over the line for half a mile either side of the point found. It was my first intention to run in our line with a curve to join the old survey, altho I have not the figures of the letter, but it was after 6 p.m. when we made the tie so shown and I did not think it necessary to take another day away from this work.

From Sta 4014+842 to Sta 4051+05 the line is well up on a nasty bluff
