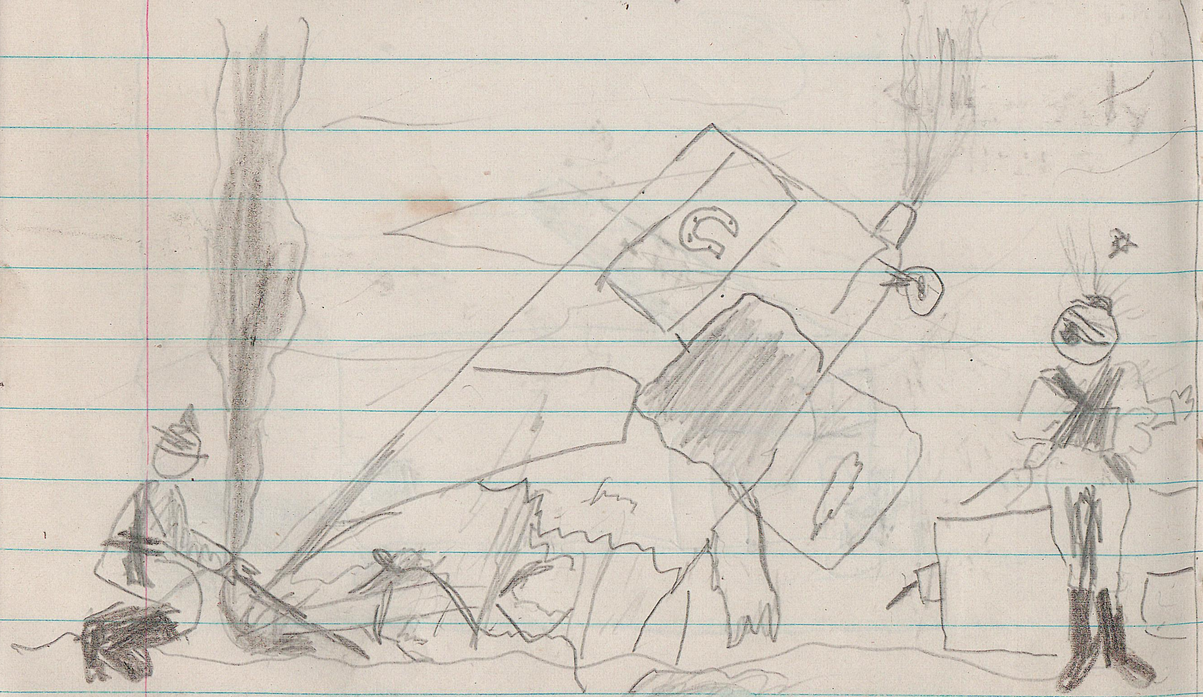
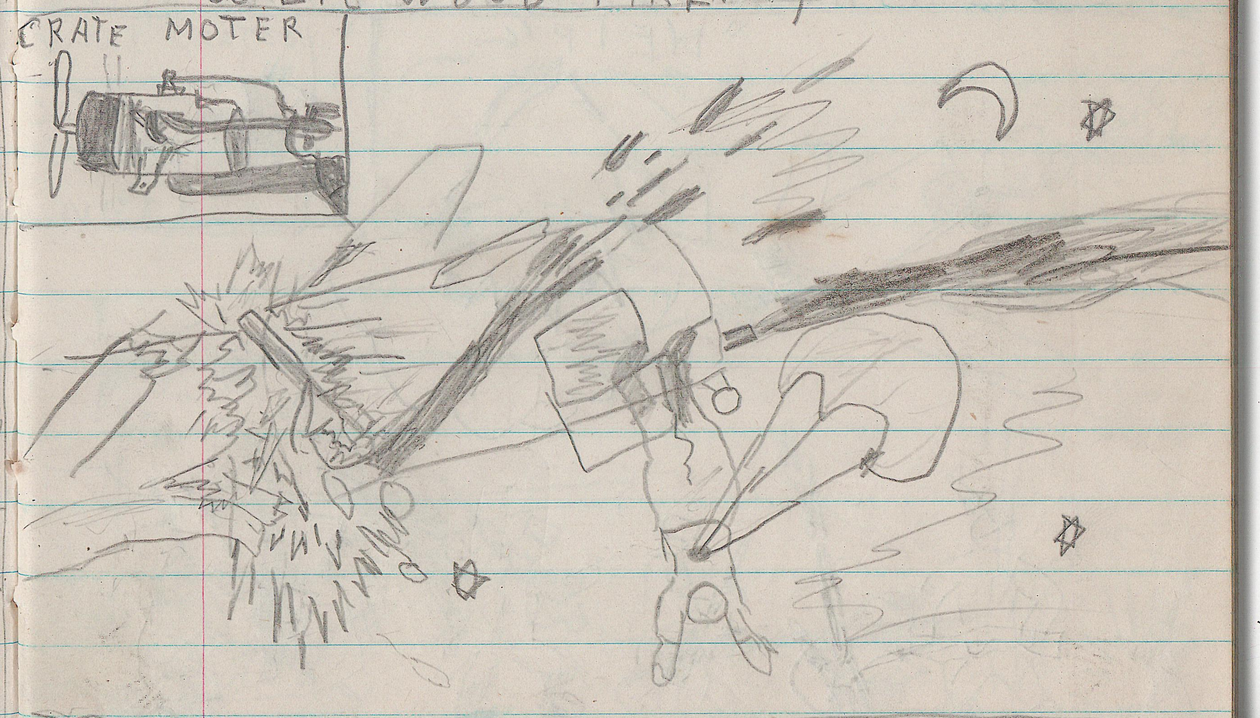
UN CONTROLable which was the
CAUSE OF MANY AXIDENTS BUT NO-
ONE WAS EVER KILLED, IF ANYONE
FLIYING A CRATE THOUGHT THEY WERE
going TO CRASH THEY would hop OUT
THE TRAP DOOR, ONCE TWO CRATES
RAN INTO ECH OTHER AT night
THEY DID NOT CATCH FIRE BECAUSE
CRATS BURN heavy oil AS FUEIL.





AFTER A TIME WE HAD A REVALUTION
THE SWIPERS MIXED WITH
a FEW OF OUR PEPOLE AND THEY
WENT a ROUND AND SHOT + BURND
BUT EVERYTHING WAS FINALY
SETTED. WE THEN STARTED TO USE
THE AIRPLANE UNTIL IT WAS FOUND
CRATES COULD BE CONTROLLED BY
a LICWOOD FIREING ROCKET
