Dear Sir:-

I arrived in Chattanooga on Wed. 9th and looked up Mr. Paul P. Buchholz of the Chattanooga Medicine Co.

He told me that the Tennessee Bauxite Co had given up their lease on the Hixon property + that he as trustee for the property owners, ~~was~~ is in position to sell the property if a purchaser can be found or to lease it on a royalty basis.

He called up H. G. Kinser and asked him to take me out to Hixon which he did in the afternoon. We spent several hours on the property.

Kinser is quite an optimist, as most prospectors are. His present estimate of available ore is between 30,000 + 40,000 tons (I do not know just how he figures, but like most practical miners he has very little idea of volumes + quantities. I estimate only a cipher off of

I am afraid I am too liberal
