Injuries to Officers.

In the matter of report from the Western District Station-house of injury said to have been received by Patrolman William H. McMullin of the Western District, in having an object blown into his eye while on duty at the Fifth Regiment Armory, during the National Democratic Convention, July 1st., 1912.

From the reports in this case from Police Physician E.H. Hutchins and Dr. Cary B. Gamble, who was on duty in the Emergency Hospital in Convention Hall on the night in question, it appearing that the condition of Patrolman McMullin's eye came from an ulceration therein and not from an injury, it was voted that this is not a case of injury received in the discharge of police duty. (See "Injuries to Officers", file No. 1143.)
