
Delco-Light Products Factories

Largest Institution of it's Kind in the world

BACK of every Delco-Light Product stands the Delco-Light Company, with the great organization and facilities that have made Delco-Light electric plants the standard of the world.

And back of the Delco-Light Company is the General Motors Corporation—one of the largest industrial groups in the world, of which Delco-Light Company is a subsidiary.

Because of the strength and reputation of the company that makes and markets them, the purchaser of a Delco-Light Product is assured of receiving a product representing only the highest engineering skill and manufacturing excellence.

It is this outstanding element of quality that gives to the user of any Delco-Light Product an absolute guarantee of dependable and economical service.

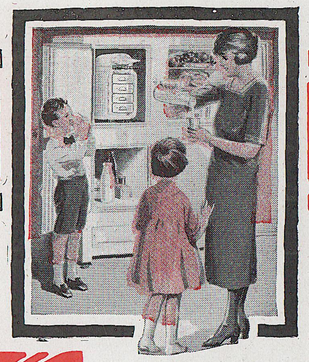
Electric light and power service makes farm life easier and more pleasant.

A D-L Electric Water System automatically pumps and delivers water for every requirement.



Frigidaire provides modern automatic electric refrigeration.

Delco-Light Products Modernize the Home

IN HUNDREDS of thousands of homes, users of Delco-Light Products have learned that the Delco-Light idea means more than just the appliances that bring modern electric service.

It means that back of the largest manufacturing organization of its kind in the world is the desire to improve living conditions in the home, to make life more comfortable, more pleasant and more profitable.

In the country Delco-Light has done much to put farming on a better and more modern basis. Delco-Light electric plants furnish electricity for lighting the home and the barn. They provide ample current for performing miscellaneous power work that results in an endless saving of time and labor.

D-L Water Systems afford a supply of fresh water at the turn of a convenient faucet, banishing the drudgery of pumping and carrying water by hand.

Frigidaire Electric Refrigeration is providing a new and better way to keep food, thereby improving and protecting health.

To make Delco-Light Products available for the largest number of families, very easy terms of payment have been provided, so that you can enjoy the advantages of electricity and electrical appliances while you are paying for them.
