My dear Sir
Relative to our Breeders Meeting for 1893. it seems it has settled down to a choice between The Gentlemens Driving Park & Kirkwood Dell. I for one cannot think we should hamstring our colts by working them over a 1/2 mile track. we as Breeders. to be successful. must get the best possible Records for our horses. This we cannot certainly do. except we have the advantage of a good nice track. Pimlico was my preference. but as we cannot get that track. I say let us have it at Kirkwood. I believe with proper efforts The association will face just as well financially at Kirkwood
