TOOTH TALK NO. 3.
A dentist can work for low prices in two ways. One way is to have a large business and conduct it systematically, using time-saving appliances and improved methods. The other and more comm n way is to use cheap material and rush all work through regardless of results. Our way is the systematic way. No dentist can improve upon our work. There can be no improvement upon the best. No dentist can quote lower prices than ours without doing inferior work.
