Dear Sir.

I see by this morning's papers that "Huffy Russell" has again fallen into your hands & I want to congratulate you upon your success in being able to still retain him.

When do you expect to be in Phila. next time? If you are likely to be up during the next week or ten days I will try to arrange to meet you there if you will let me know it a day or two in advance. As long as I was unfortunate in being able to break my toe Mary "Almoretta" this mo. I think Dec. will be too late & I will put off breaking her in probably March. I will likely want to see you another month & thought if I could meet you in Phila. when you are up on other business I could arrange the matter.

Very truly Yours
W. P. Abbott
