If he shows up well in the Spring I want to have him worked and start him up next season.

Could you take him, and if so on what terms? Wishing you a happy and prosperous new year I am.

Truly yours.

P. S. If you can use them I would like to give you three notes for the balance of my account (after paying $75.00 cash) payable March, April and May. I could meet these and would add interest to them.
