Frederick, Md., Nov 20th 1891

Mr Emed. B. Emory
Dear Sir,

Yours of 19 Just received. Of course I would prefer to bring my mare home when you feel sure that she is through with the horse, but I prefer leaving her entire you think she has caught up - it is our fair and our expension to return if it can be avoided, so leave her until as often as you think it advisable, and if she continues to refuse let me know - I have just used considerable money for other purposes, the notice is short, but I will try to remit you at least a part at the time you name.

Yours Truly
D. V. Stauffer
