Sugar & apples are some mean wild horses - & have always made them afraid of me. I never go to my stable that I dont take a packet full of sugar & my horse I have knows me. Two weeks ago. I brought to my house in the city four wandering colts by Regal W. they were sired as Breeds & Tinia - & petted them & fed them sugar. & now they are as gentle & affectionate as a dog. & when I go into the yard & call them - they will leave their feed & come to me - & my 6 - & 8 year children play with them. I had at first to force the sugar in them manners. Sugar & petting will gentle your mare, if you will give it to her when she is being hitched up - & when you go near her.

Possibly she bits herself that makes her break. Beat her up well - I found out this week - that made one of my fine horses break - I have four of the finest colts by Regal W. I ever saw - perfect cut trotters - Dont sell Regalia - Regal W colts will be in the front next year - Look at the numbers of fast ones - that trace to "The Moor" & Regal has two crosses to the Moor - by his mother - all of Regal W colts that fast - have size - so put Regalia in good hands & you will have a race mare - Let me hear from you after you feed her sugar &c
