ever go. into there if so would like to have you
look her over for me also mare in foal by him and
if you think her promising for speed will buy her
and develop her now if this will put you to any
ill convenience please dont fail to say so, but should
you run up there and it is any expence will meet it
with pe as it is impossible for me to leave just
now, do you know of any fillies by him that
could be bought worth the money and of any
breeding on dams side. as I have great
faith in "Russills" future would like very
much to get something by him,
Well as am pressed for time will close
Suppose you will be down to see us in the fall
again hope so. anyway

Respt.
