Esteemed friend,
Edward Emory —
Centreville. Md —

I own the young horse "Sutmore" which I purchased from W. C. Armstrong about one year ago — He is an ideal little horse and I am much interested in knowing his breeding, training &c — I understand you previously owned him or raised him and he run a stud until about a year ago and that there are some of his get in the country. Would it be troubling you too much to give me his pedigree year & date when foaled and any other information that will be of interest to me. I am at present using him for my own personal driving and like him so well that I am interested in knowing his breeding. I believe he is sired by "Woodnut" whose pedigree I have — Trusting you can furnish me with the desired information I am very truly

H P Passmore
