
ves made as you have
been doing. I think
I could leave them
another month as I
am anxious not to
have to ship either
of them back.
What would you charge
additional to drive
the young mare every
day on the track
and see whether she
has any speed —
She was well broken
a year ago — but
was muzzled gaited
and could not show
any speed at either
gait — You have two
fine yearling fillies
both chestnut — I think
I especially liked the
dark chestnut with
narrow strip in face

and think she is out
of one of the mares you
bought in New York —
I forgot to ask you
whether you received
my check — but
presume you did
Hoping to hear from
you
Very truly
Stilson H. Tatum
